

POST-SCRIPTS

By
GEORGE ROTHWELL BROWN

"Who'll put him to proof?"
"I," said All Earth.
"Whatever he's worth,
I'll put to the proof."

The French court of appeals has just settled a lawsuit that was begun in 1372. Don't crowd M. Caillaux, Mr. Mellon—just give him a little time on that debt settlement.

It is predicted that the Senate's investigation of the Illinois primary is going to make the recent Pennsylvania auction look like the financial transactions of the inmates of a county poorhouse.

Speaking of the poorhouse, the buggish king "goes over the hill" and the petticoat king and corset king have a new rival; and there is pathos in this, too, for we maintain that the good old days were best, when a fellow wasn't pinched as a "one arm" driver when he wrapped the reins around the fly flicker and let Dobbin pick his own parking place.

All prohibition is going to cost us next year is \$29,113,427, not counting Representative O'Pahaw's salary.

With Chicago negroes raising \$1,000,000 to make it as easy for a colored man to vote as it is for a Southern white man to take a drink, how long does the wet-drinking, dry-voting South think it can get away with its policy of making it as hard for a Northern man to take a drink as it is for a Southern negro to vote?

Russian Count issues a call for a convention in New York to organize an all-Slav country of 200,000,000 population, but we haven't got that many Slavs in New York—yet.

Remember when the Prime Minister was ushered into the presence of the General dressed as a suffragette—"Yes, it is indeed Balaquitch. It has come to this: that the only way that the Prime Minister of England can get from Downing street to the War Office is by assuming this disguise, shrieking 'Votes for women,' and chaining himself to your doorstep." The ladies of Britain will stage just one more parade in the interest of universal suffrage, but how tame the whole thing seems now.

"And crazy earth has had her shaking fits
More frequent, and foregone her usual rest."

We call these disturbances in the Near East earthquakes, as Nature takes up the so-called new fad, and dance, an old-fashioned shake-down, but Ovid described the same sort of thing with as much insight and more sense of the poetical. You recall his Metamorphoses—Liber Primus—when the Omnipotent Father "piled mountains to the lofty stars," and breaking through Olympus "shook off Ossa from Pelion"—"et excussit Ossa Pelio."

The world is always in a state of change, physically and psychologically, and once pacific China now resounds with wars' alarms, and is taking from Europe the gin and Scotch, once exported to America—as we go in for piffle and prohibition—and gives up the dope habit which the Yankees are just forming. The Chinese may yet emancipate themselves from the poppy, and, becoming as hard-drinking a race as the Anglo-Saxons, go forth and conquer the world, so that our descendants may yet see a gunboat from Hong Kong collecting customs duties in New York harbor. Here's a "cyclical in Cathay!"

Otto H. Kahn does the impossible, and finds that there is good in jazz, on the same theory that the morons who now find their mental meat and drink in the screeching tabs will learn in time to appreciate the literature from which their best ideas are stolen. How many of us found our way from Nick Carter to Milton via Rider Haggard, Archibald Claverling Gunter, Dickens and Shakespeare?

At the Regatta, in Milan, during the war, we once heard the opera Mose, and up to that time we had always supposed that the Chicago World's Fair had produced an original American tune—"She never saw the streets of Cairo, On the Midway she had never strayed, She never saw the coochee-coochee, Poor little country maid."

The people of Pomerania are getting rid of a June-bug pest by flattening 'em out with a steam-roller and we have seen Frank H. Hitchcock use the same handy instrument very effectively in the Coliseum on a lot of pestiferous insects.

M. Caillaux, the transcendent genius of French finance, has seen grand plan for funding sea war debt—he will float sea loan in America. Voila!

HUGE BANK SCANDAL UNCOVERED IN ITALY; MANY SENT TO JAIL

Swiss Consul General and Men High Up in the Fascisti Seized.

COUNT, UNDER ARREST, TRIES TO TAKE HIS LIFE

Secretary of Fascismo Gets Credit for Discovering Corrupt Conditions.

Rome, June 27 (By A. P.).—Secretary General Turati, of the fascist party, has uncovered a huge banking scandal involving a score of persons high in the party councils under the regime of Robert Farinacci, whom Turati succeeded as secretary general. Twelve men, all prominent in political, financial and business life, have been arrested in Parma, Florence, Genoa, Piacenza and Cremona. Warrants for the arrest of ten others have been issued.

The far-reaching significance of the scandal, which concerns primarily the alleged corrupt handling of the affairs of the recently defunct Agricultural Bank of Parma, is indicated by the fact that one of those arrested is Giambattista Biaggi, Swiss consul general at Genoa. Others under arrest are Count Luigi Lusignani, former president of the bank, who, the police assert, attempted to commit suicide when taken into custody; Prof. Alessandro Gropelli, of the University of Parma, and Profs. Calvi and Ghibellini.

Ugly Rumors Circulated.
Ugly rumors concerning the bank, which had deposits of \$5,000,000 and 20 flourishing branches, culminated in the closing of its doors on June 18, after which Signor Turati began an investigation. On the submission of his findings to Mussolini, the premier ordered immediate action, regardless of consequences.

The specific charges against the men under arrest have not been made public, but the immense political importance of the case is pointed out by the semi-official, Popolo di Roma, which says that Parma is overjoyed and placarded with posters reading:
"The duke's word will prevail."
"Gentlemen in fascism, thieves in jail."

Lusignani Powerful.
The paper adds: "Until the arrests, the people believed that no body dare act against Lusignani, the roots of whose influence were so deep that it seemed absurd to try to tear them up."

Although this is the most sensational, it is not the first step that Turati has made to clear up by drastic methods "the difficult local situations" left over, as he puts it, by the Farinacci regime. Many deputies have been expelled or suspended from the party, provincial party directorates have been dissolved in many places, while dozens of representatives of the present administration, with almost unlimited powers, are busy cleaning house throughout the nation.

Cutts, Marksman, Wins His 8th Medal

Lieut. Richard Cutts, Jr., son of Col. R. M. Cutts, United States marine corps, has been awarded his eighth gold medal for excellence in marksmanship at the marine corps shooting match held last week in Quantico, Va. This trophy places him among the ten best marksmen in the marine corps. Although only 23 years old, Lieut. Cutts has repeatedly been victorious in shooting contests throughout the United States. Last year he was one of the winners of the Western match at San Diego, Calif., and he has also been presented the President's One Hundred decoration. He expects to depart shortly for training with selected marine corps experts at Wakefield, Mass.

Horsewhip Gives Way As Auto Gains Favor

(By Associated Press.)
Horsewhips are rapidly fading out of the equine picture, while motor transportation continues to advance.

A census of whip manufacturers recently announced by the Commerce Department, disclosed a falling off of 58.5 per cent last year as compared with 1923, the last census year, with the whips valued at \$295,270 and \$701,248 in the respective years.

Suit, 600 Years Old, Is Decided by Court

(Special Cable Dispatch.)

Paris, June 27.—The court of appeals at Aix En Provence has just gotten around to the settling of a lawsuit instituted 600 years ago.

The suit concerned ownership of 12,000 acres of rich pasture lands at Cour, near the Italian border, a former domain of the royal house of Anjou which was first involved in the litigation in the year 1372. Three communes have since been disputing possession of the valuable lands. The court of appeals has now decided it should be divided, ending a case which is something like a record, even in this part of the world where courts are not noted for their speed.

A local statistician figured out that lawyers' fees during the centuries the case has been fought out in the courts during a half dozen regimes would have sufficed to buy the property 21 times over.

DOWNTOWN RESTAURANT ROBBED AT RUSH HOUR

Thieves Steal \$250 When Cashier Turns to Wait on Patrons.

LOOT CHURCH OF WINE

While more than 100 persons were dining in Childs' restaurant, 1423 Pennsylvania avenue northwest, yesterday afternoon, two unidentified men engineered a bold robbery, which netted them \$250. The theft was not discovered until five minutes after it had been committed.

Mrs. Fay Doty, of 78 V street northwest, cashier at the restaurant, told Detectives Frank Varney and Stephen Brodie, of headquarters, that she was counting the day's receipts at her counter when two men approached, shortly before 2 o'clock. She left the money, which was stacked in bills of \$5 denomination, lying unguarded at one end of the counter and walked to the other end to wait on one of the men.

The man made a small purchase and left the restaurant with his companion. Other customers approached the counter in rapid succession after the men left. Mrs. Doty, after a busy five minutes and during a slight respite in the rush, returned to count the money and found it gone. She notified the manager of the restaurant, and after a search near the counter he notified police headquarters.

When the detectives arrived they conducted their investigation so quietly that practically all of the customers in the restaurant left without learning of the robbery. Mrs. Doty furnished police with a good description of the men whom she suspects.

Thieves forced their way into two churches early yesterday, broke open collection boxes for the poor and escaped with \$100 and \$150.

BOY SETS OFF \$5,000 STOCK OF FIREWORKS

Fire That Follows Endangers 7 Persons; Blaze Fought Several Hours.

Chicago, June 27 (By A. P.).—Sparks from a toy pistol in the hands of a small boy today set off a \$5,000 stock of fireworks, and started a fire that resulted in damage estimated at \$260,000 at Gary, Ind., and threatened the lives of seven people. Five small boys were making a pre-Fourth of July selection of stock for their celebration at the time.

Miss Julia Anderson, who had gone to the basement, was cut off from the stairway by the fire and was slightly burned before rescued. Albert Ralph, a court bailiff, who was in the store, also was trapped. He was forced to run through the flames with two of the boys. The other three boys ran when the fire started.

Five fire companies worked several hours before the flames were under control.

Gen. Crowder Better, Is Hospital Report

Havana, Cuba, June 27 (By A. P.).—Gen. Enoch H. Crowder, American Ambassador to Cuba, who is in Camp Columbia military hospital under treatment, was said today to be progressing satisfactorily. The attending physicians have not yet decided whether an operation will be necessary.

CITY COAL DEALERS WILL APPEAR TODAY, BUT WITHOUT BOOKS

Local Merchants Decide to Refuse Records, Despite Penalty.

SAY IT'S IMPOSSIBLE TO GIVE FACTS ASKED

Bitterness Evident Over Senate's Demand to Have Secrets Revealed.

Threatened with possible fine and imprisonment if they do not obey the demand of the Senate District committee for their appearance and submission of their books before the committee, subpoenaed District coal dealers will appear before the committee today, but will not take their books with them.

Their course was determined on at a conference last night in the office of Roger J. Whiteford, attorney for the dealers, at which the whole situation, growing out of the efforts of the Senate District committee to get detailed information about the coal business in Washington, was gone over.

Subpoenas were issued Saturday by the Senate sergeant-at-arms for six dealers. Of these two will not appear at the committee hearing set for 2 o'clock this afternoon. These are Wallace D. Blick, president of Blick Brothers, who is not in Washington and has not been served with the subpoena, and Miss Margaret C. Grace, of R. J. and M. C. Grace, who is ill, it is said, and will not be able to appear.

Confer This Morning.
Another conference will probably be held this morning before the dealers appear before the committee, Mr. Whiteford said.

Besides the two named, the dealers summoned to appear are J. Maury Dove, Jr., who will appear for his treasurer, for whom the subpoena was issued, Fred A. Hessick, W. W. Griffith and A. P. Woodson. The long-drawn-out fight between the dealers and the committee was brought near to a climax Saturday when the committee announced its purpose to instruct District Attorney Peyton Gordon to prosecute those dealers failing to obey its command for their presence and their books. The law under which they would be prosecuted provides a fine of not more than \$1,000 nor less than \$100, and imprisonment for not less than one month nor more than twelve months.

The dealers last night refused to make any formal statement or to discuss the situation for quotation. Mr. Whiteford and several of the dealers, however, declared that it would be physically impossible for the summoned dealers to produce before the committee all of the records demanded in the subpoenas served on them.

Bitter Over Inquiry.
All of the dealers subpoenaed were bitter in their denunciation of what they said was the unfairness of compelling them to open their books and exposing their business secrets for the benefit of competitors, whom they are forced now to fight hard.

(CONTINUED ON PAGE 3, COLUMN 2.)

Varied Program Offered on Post Radio Hour

A varied, and entertaining program will be heard by radio fans between 6 and 7 o'clock tonight when the semi-monthly Washington Post program will be broadcast by WCAP, the Chesapeake & Potomac Telephone Co.

Mrs. Alfred J. Brousseau, president general of the D. A. R., will deliver the only address of the program, explaining the sesquicentennial celebration by the D. A. R. in the D. A. R. hall. The program will begin with a talk for children by Elizabeth E. Poe, of The Post staff, and be concluded with music by the Powhatan Roof orchestra. Duncan Thomson, accompanied at the piano by Edna MacCauley, will render solos of Scotch songs and recitations.

An Italian baseball story, recitation of "Planders Fields" and a Hungarian love song will be contributed by Charles F. Ferris.

Lighthouse Girl of 15 Gets Lloyds Hero Medal

London, June 27 (By A. P.).—The committee of Lloyds has awarded the Lloyds bronze medal for meritorious service to Ethel Langton, 15-year-old daughter of the keeper of St. Helen's Fort lighthouse, Bembridge. The medal is given in recognition of her endurance in keeping the lighthouse lamp working for three days during a gale last March.

The girl was left on the lighthouse while her parents made a dash for shore to replenish the sadly diminished provisions. They could not get back owing to the gale, and for three days and nights the girl was alone, with only her pet dog for company. Undaunted, she kept the light going, climbing 20 feet up a steel ladder at regular intervals to attend to the oil-burning lamp. All the food she ate was two pounds of bread.

The Lloyds bronze medal has not been previously awarded to a woman.

MAN SHOT LYING IN BED; RIB DEFLECTS BULLET

Morris M. Thompson Is Fired Upon 3 Times After Quarrel; Assailant Escapes.

H. W. FISHER IS SOUGHT

Morris M. Thompson, 19 years old, 622 Eleventh street northeast, was shot in the breast with a .32-caliber revolver yesterday, while lying in bed in his room on the second floor, police say, by Harry W. Fisher, 40 years old, a former roomer at the house. Following the shooting, the assailant escaped.

The fact that the youth was lying on his side when the bullet entered his body is attributed by Dr. Joseph J. Larkin, of Casualty hospital staff, as the means of saving him from death. The bullet was deflected by a rib.

Despite his wound, Thompson will be permitted by Dr. Larkin and Dr. A. M. MacDonald, who are attending him, to leave the hospital for a few hours tonight to act as best man at the wedding of his brother, Howard E. Thompson. The wedding will be solemnized in the Ninth Street Christian church, Ninth and D streets northeast.

Fisher roomed at the house for the last five years, leaving there three weeks ago. Saturday night he returned to the house and passed the night there. The brothers had been up late Saturday night, rehearsing for the wedding, and slept late yesterday. Fisher was described by Howard Thompson as "a bossy man," who always insisted on having his way. The brothers live with their widowed mother, Mrs. Minnie Thompson.

Fisher entered the front room, where Morris Thompson lay in bed. He had a razor in his hand, Howard Thompson said, and words passed between the two. Fisher left the room.

(CONTINUED ON PAGE 3, COLUMN 6.)

FIELD IN ARLINGTON TO BE AIR TERMINAL

Lease Signed for Transit Line Between Philadelphia and Washington.

The Philadelphia Rapid Transit Air Service, Inc., which plans to run a passenger airplane service between this city and Philadelphia, has obtained a five-year lease on a 30-acre field in Arlington, Va.

This field, which will be used as a terminal by the Philadelphia concern, is now used as a base by Christopher Pickup, a commercial flyer who specializes in sight-seeing. He will continue to use the field.

The lease was negotiated in the Arlington county court house. C. E. Ebert represented the Philadelphia concern, and H. Rosier Dulaney the trustees of the property. Mr. Ebert afterward announced that the passenger service would begin early in July.

German Physicians Oppose Prohibition

Eisenach, Germany, June 27 (By A. P.).—The conference of German physicians meeting here, which included, as well, prominent temperance advocates, adopted a resolution today against all forms of prohibition laws, declaring that legal restrictions on personal freedom would lead to race demoralization.

CAILLAUX MAY SEND DEBT MISSION HERE TO REOPEN ACCORD

Said to Seek Assurance as to Possibility of New Credits.

WILL DELAY HANDING PACT TO DEPUTIES

No Action Is Likely Before Conversations Here on Certain Provisions.

Paris, June 27 (By A. P.).—Before M. Caillaux, the new finance minister, presents to the parliament the question of ratification of the Mellon-Berenger agreement on the Franco-American debt new conversations will likely be initiated at Washington.

While the semi-official statement on the subject is most guarded, in that it specifies the new conversations would deal largely with the question of reopening credits in the United States to assist in the stabilization of the franc, the majority opinion is that the vexatious matter of Article VII of the accord also would be probed and that the men selected for the effort would be M. Bokanowski, former reporter general of the budget and one of M. Caillaux's collaborators in the attempt at settlement last year.

Is Partisan of Accord.
M. Caillaux, it is represented in quarters close to the new ministry, considers regulation of the debts to the United States and England as the first step in any program for the stabilization of the franc.

He also is represented as a partisan of the Mellon-Berenger accord, but in view of the objections certain to be raised in parliament to the terms as they now stand, the finance minister is understood to believe that the accord should not be presented for ratification until the ground has been cleared, particularly with regard to the probability of reopening credits. Thus until some formal exchanges have taken place the agreement which M. Berenger brought back to Paris is likely to lie untouched on the finance minister's desk.

Caillaux Has Busy Day.

M. Caillaux passed his ministerial Sunday entirely in the study of that part of the new minister's declaration of policy having reference to finances, especially with regard to the debt agreement. First of all he received M. Bokanowski for a long talk, and then was closeted with Francis Pietri, undersecretary of the budget, and Jacques du Boin, undersecretary of the treasury, and later he visited Premier Briand for another discussion turning largely on the war debts.

The ministerial declaration, which is due to be presented in the chamber on Tuesday, will be gone over finally at a cabinet council tomorrow.

New Thought Alliance To Build a Parthenon

New York, June 27 (By A. P.).—A temple designed after the Parthenon on the Acropolis at Athens will be erected in New York in the near future by the New Thought alliance, Mrs. Mary E. Chapin, its president, announced tonight at the closing session of the alliance's thirteenth annual congress.

She said the temple would have "a platform so broad that every religion and person having a universal message could come there, receive a cordial welcome and deliver it."

Chance of Meeting Ideal 1 in 1,000,000

Philadelphia, June 27 (By A. P.).—Young men and women have about one chance in a million of meeting their ideal mate, in the opinion of Dr. Karl Greenwood Miller, assistant professor of psychology, University of Pennsylvania.

DICTATORSHIP IN LISBON IS DECREED BY DA COSTA

All Prerogatives of Head of the State Are Assumed by General.

EXILE FOR OPPONENTS

Lisbon, Portugal, June 27 (By A. P.).—Gen. Gomes Da Costa installed himself today as supreme ruler of Portugal. A decree in the Gazette confers upon him full powers and places in his hands all prerogatives of the head of the state.

The decree, bearing the general's signature, also abolishes the functions of vice-governors representing the state on the boards of the two banks of issue.

All political prisoners will be exiled. They may be accompanied by their families and enjoy their liberty on the condition of not returning to Lisbon.

The government created today a military administration of the municipality of Lisbon. This was accomplished after the general had ordered dissolved the existing municipal authorities.

Portuguese royalists high in political councils made public today an official declaration denying any connection with the recent military coup.

Amundsen and Crew Arrive in Seattle

Seattle, Wash., June 27 (By A. P.).—Capt. Roald Amundsen and fifteen others who flew across the north pole from Europe to Alaska last month, arrived here at 4 o'clock this afternoon from Nome.

"My work is fulfilled," the Norwegian leader of the expedition declared. "All the big problems are solved. The work that remains in polar exploration is a matter of degree. Let others handle it."

R. S. CONVERSE BRIDE OF VISCOUNT FURNESS

Daughter of H. H. Morgan Recently Got Divorce; Sister a Vanderbilt.

London, June 27 (By A. P.).—Mrs. Thelma Morgan Converse, daughter of Harry Hays Morgan, of New York, was married today to Viscount Furness, of the Furness Shipbuilding Co., and various other great industrial concerns.

The ceremony, which took place at St. George's, Hanover Square, was attended by a few relatives and intimate friends.

Lord Furness, who is chairman of the Furness Shipping Co., was born in 1883. His first wife died in 1921. He is lord of the Manor of Grantley, Yorks.

Mrs. Converse recently obtained a divorce from her first husband, James Converse, of New York. Her father, Harry Hays Morgan, has been prominent in the American consular service. Mrs. Converse's younger sister, Gloria, married Reginald Vanderbilt, who died last year, and another sister is the wife of Benjamin Thaw, Jr., of Pittsburgh.

Brooklyn Race Riots Quelled by Reserves

New York, June 27 (By A. P.).—Police reserves were called out twice today to quell disturbances in Prospect place, Brooklyn, when altercations between white and negro residents developed into riots.

Three white men were injured and four negroes were arrested. Women and children tossed sticks and stones from roof tops. The trouble is said to have resulted from negroes moving into a white neighborhood.

TOWNS DESTROYED BY QUAKE AND FIRE; MANY ISLES ROCKED

Vast Damage in Region of Mediterranean and Aegean Seas.

CRETE AND RHODES ARE BADLY SHAKEN

Egypt, Ionians and Many Other Places Suffer Loss; People in Consternation.

Athens, Greece, June 27 (By A. P.).—A fire which followed an earthquake yesterday caused considerable damage at Candia, island of Crete, where a number of ancient houses crumbled. The earth shocks were felt strongly throughout Crete and in the Cyclades, a group of islands of the Aegean sea, as well as the Ionian islands and many other places.

Alexandria, Egypt, June 27 (By A. P.).—A 3-minute earthquake, which occurred at 9:50 o'clock last night, shook a good part of Egypt. Numerous cracks appeared in large buildings in this city, but no casualties are reported.

Many Islands Have Damage.

London, June 27 (By A. P.).—Most of the islands in the Aegean and Mediterranean seas appear to have suffered damage in yesterday's earthquake, which was particularly severe in Crete and Rhodes, where numerous villages, according to reports received by London firms, collapsed.

The most serious damage thus far reported was in the southern extremity of the island of Rhodes, where a lighthouse was destroyed and one person was killed and several were injured. Shocks were also felt in the other islands of the Dodecanese.

An earthquake was registered in Egypt, and at the Helwan observatory it was announced that the shock came so suddenly and with such force as to put the seismograph out of commission.

At Cairo, Port Said and other towns the earthquake caused consternation among the inhabitants who fled from the houses and ran shouting into the streets. The damage, however, was not serious.

2,000 Houses Destroyed.

Rome, June 27 (By A. P.).—A great earthquake has destroyed more than 2,000 houses in the island of Rhodes, in the Aegean sea. The villages of Arkhangelo, Arima, Apollakia and Monolitho suffered most severely from the continued shocks.

(The island of Rhodes, of the Sporades group, in the Aegean sea, was occupied by Italy during the war with Turkey in 1912, as a base. By the treaty of Sevres, which was signed by the allies and Turks in August, 1920, Turkey ceded Rhodes to Italy. Rhodes is traversed lengthwise by mountains. It is about 50 miles long and 25 miles across. The population consists largely of Greeks.)

(By the Associated Press.)

An earthquake or "rather severe" intensity, lasting from 1:21 to 3:30 p. m., was recorded on the seismograph of Georgetown university yesterday by Director Tondorf. The quake, estimated by Director Tondorf to be 5,900 miles distant in a southerly direction, reached its maximum intensity between 2 and 2:04 p. m.

Alsatian Royalists Battle With Police

Strasbourg, France, June 27 (By A. P.).—A policeman was wounded and two royalist students were arrested today because of the royalists' insistence on staging a public parade, despite police orders to the contrary.

The manifestation took place after a meeting at which Leon Daudet, royalist leader, made a speech upholding the demand of the Alsatian Catholics that they be treated tolerantly by the government.

Bible Class Enjoys Sunday Golf Game

Shenandoah, Iowa, June 27 (By A. P.).—Sunday golf under the approval of the pastor of the Congregational church was begun today. Twenty-five members of the Bible class played around the golf course and then hurried to Sunday school and church in "knickers." They were welcomed by the Rev. L. A. Lippitt, who declared golf was a clean game for Sunday morning awakening and much better for the church goer than late sleeping.

MEMBERS OF HOUSE WILL BREAK BARRIER OVER FENNING TODAY

Disregarding "Impropriety,"
Gilbert Will Urge Ouster
of Commissioner.

VETERAN COMMITTEE
ALSO READY TO SPEAK

With Session Near Close,
Feeling Is Views Should No
Longer Be Withheld.

The barrier of "impropriety," which has been thrown around discussion of Commissioner Fenning's case in the House at present is to be broken away today, according to plans.

Representative Gilbert, of Kentucky, who collaborated in the report of the House District Subcommittee, recommending in effect, that the commissioner should not remain in office, plans to take the floor in support of it, and members of the House war veterans' committee have also been given time to speak.

Discussion of the case has been held in check because of the deliberations of the House judiciary committee.

Attitude of Gilbert.

Mr. Gilbert, however, considers that the activities of that body are of no concern to him. It is his attitude that he was a member of a committee, representing the same Congress and with equal standing to the judiciary committee, directed to investigate Mr. Fenning, and that that committee has already rendered its "verdict." With the session now fast approaching, an end he considers he would be derelict in his duty if he did not do something in support of a report, in the making of which he had a part.

It is his attitude and that of the members of the veterans' committee that there would be no need of hurrying if adjournment plans were not going forward rapidly, and that they have withheld discussion long enough in an effort not to embarrass the judiciary committee.

There is no reason why the judiciary committee should be influenced by what they say in its deliberations on legal matters or the much-mooted question of whether the commissioner is impeachable, they contend.

Will Discuss Admitted Facts.

The discussion of the veterans committee members and that of Mr. Gilbert will turn on admitted facts which the commissioner himself has admitted. The judiciary committee may have many things to consider with which they are not concerned. The fight they wish to make is on the established fact that Mr. Fenning is a commissioner; that he is guardian for more than 100 wards, visiting those at St. Elizabeth's hospital at infrequent intervals and those at distant places seldom, if ever, and charging the maximum fee for his services and in addition received fees for handling himself, which now, after some twelve or thirteen years, it has been found, should have gone to the wards.

It is their contention that Mr. Fenning's interest in the wards was solely a selfish one, while a guardian is supposed to occupy virtually the same relation to his ward that a father holds to his son.

They want the House to give an expression of approval or disapproval on that state of facts before they go home.

Vouching for All Expenditures.

In all the evidence presented before either the House veterans' committee, the judiciary committee or the District Subcommittee there is no inkling that the commissioner misappropriated any part of the body of the estate. In fact, his elaborate bookkeeping system has been the subject of envy. For every expenditure from the ward's funds he gave vouchers. For example, there was one for 65 cents when he bought his ward some olive oil.

Even when he sent them fruit or cigars there was a receipt for the charge against their estate.

It is the charge of "commercialization" on which the attack has mainly turned.

The unrest in the House which was reflected by the outbreak in the Senate Saturday is caused by the reports circulated several days ago that the judiciary committee was about to "whitewash" the case. Apparently the reports had their origin in the statement of one of the members of the subcommittee, considered an authority as to what the body would do, that it was going to report that nothing illegal had been found in the commissioner's activities, except the self-bonding phase, and that inasmuch as the courts had "acted" in that there was no necessity of the House doing anything. This report was broadcast by radio. The committee however, did not make such a finding but instead postponed its decision for a week.

WAR COLLEGE CLASS GETS DIPLOMAS TODAY

Gen. Hines to Present Certificates at Graduation Exercises This Morning.

GEN. ELY WILL SPEAK

Officers to be graduated from the Army War college this morning at 10 o'clock, at which Maj. Gen. Hanson E. Ely, college commandant, and Maj. Gen. John L. Hines, chief of staff, will make addresses, the latter presenting the diplomas, are:

Col. Conrad S. Babcock, Walter T. Bates, R. C. Berkeley, Percy P. Bishop, F. E. Evans and W. C. Harlike, U. S. M. C. Col. Richard H. McLean, Col. Joseph A. William H. Oury, Ephraim G. Peyton and Will H. Point.

Lieut. Col. Robert McC. Beck, Archibald F. Commiskey, Avery J. Cooper, Warren T. Hannum, Gordon Johnston, Frank Keller, Roy C. Kirtland, Ben Lear, Jr., Lewis S. Morey, John E. Munroe, Raymond S. Pratt, E. P. Prentice, Consuelo A. Seane and Harry C. Williams.

Maj. J. C. A. Baehr, Fred H. Baird, Louis H. Bauer, Jay L. Benedict, Charles S. Blakeley, Otto L. Brunell, Rapp Brush, Richard C. Burston, William T. Carpenter, James M. Churchill, George W. Crou, E. K. Crain, Anton C. Cron, Emile V. Cutrer, Jesse C. Drain and George C. Dunham.

Maj. Robert C. Eddy, Edward E. Farnsworth, John F. Franklin, James L. Frink, Max B. Garber, Alvan C. Gilman, Jr., Joseph A. Green, Homer M. Groninger, George M. Halloran, William N. Maj. William C. Miller, John D. Reardon, Thomas M. Robins, George A. Sanford, Emmert W. Savage, John P. Smith, Brehon B. Somervell, John S. Stutesman, Daniel L. Sultan, Samuel J. Sutherland, Daniel N. Swan, Jr., Pearl L. Thomas, Matthew H. Tomlinson, Charles F. Thompson, Karl Truesdell and Alexander Wilson.

Capt. F. D. Barrien and R. P. Craft, U. S. N., and Commander D. E. Cummings, U. S. N.

SOUTHEAST CHURCH SCHOOLS TO PICNIC

Outing at Marshall Hall to
Raise Funds for Episcopal Chapels.

Pupils of the church schools of several Episcopal churches and chapels of the Southeast and adjoining sections will go on an excursion to Marshall Hall Thursday. About 500 children, their parents and friends are expected to attend.

The excursion will be for the purpose of raising funds for building the Annunciation and Resurrection chapels in the Southeast. The excursion will be under the direction of Richard Hamilton, superintendent of the church school of the Chapel of the Nativity, which will have charge of the outing. The Rev. Enoch M. Thompson is vicar of the three chapels—the Nativity, the Annunciation and the Resurrection. A ball game will be a feature.

4 STILL ARE SEIZED; 9 PRISONERS TAKEN IN RAIDS BY POLICE

Bell Alarms, Operated by
Lookout in Tree, Prove Use-
less in Saving Tunnel.

OXON HILL JUSTICE
BUSY IMPOSING FINES

Alleged Selling of Liquor From
Bicycles Results in Arrest
of Two; Store Raided.

A series of week-end raids by police of the flying squadron, under the direction of Capt. Guy E. Burlingame, of the Eleventh precinct, netted four stills, three automobiles, two bicycles, approximately 800 gallons of various alleged liquors, approximately 5,000 gallons of mash, paraphernalia for bottling and capping, and nine prisoners. Two stills were found in a tunnel under a barn, 25 yards beyond the District line on Sheriff road, Md.

A system of bell alarms, which were operated by a lookout in a tree 100 yards from the still, proved useless, when Revenue Agent T. E. Hartman, acting on information given Capt. Burlingame, led a squad of Maryland police to the mouth of the tunnel, a hole 20 yards from the barn, and the only means of escape.

Electric Lights in Tunnel.

The tunnel was fitted, out with electric lights. The stills, 200 gallons of finished product and a quantity of mash were destroyed. Four prisoners, all colored, were tried in Oxon Hill on charges of manufacture and possession. Robert Cross, George Butler and David Blake were fined \$150 and costs each, while the fourth, Jack Evans, was assessed \$125 and costs. Two automobiles were seized.

Going 100 yards farther on Sheriff road, the squad raided the home of Joseph Ruppert, a 500-gallon still, alleged liquor and mash and an automobile were discovered and destroyed. The prisoner was taken to Oxon Hill and fined \$200 and costs on charges of manufacture and possession.

The fourth still was discovered in the home of Robert de Francis, 619 Twenty-third street northwest. The still, 50 gallons of alleged liquor and 300 gallons of mash were destroyed. De Francis was arrested on charges of manufacture and possession.

Edward Ford, colored, 122 Virginia avenue southwest, and Clarence Ford, also colored, 122 E. street southwest, were arrested on charges of transporting liquor through the streets on bicycles. Police say they were selling drinks from half gallon jacks they carried concealed in sacks.

Owen Long, 1327 Euclid street northwest, bartender at an establishment at 822 H street northeast, was arrested in a raid on the establishment, which netted police 20 gallons of alleged liquor. The raid was "no reception committee" to greet the raiders when they entered 1604 Fourteenth street northwest, where approximately 20 gallons of various alleged liquors, paraphernalia for capping and bottling were seized.

STUDENTS TO RECEIVE WAR DEPARTMENT AID

Funds for College Juniors in
Return for Short
Enlistment.

University juniors, who may be prevented from completing their college education by lack of funds, will be substantially aided by the War Department, under the terms of a plan announced yesterday.

It is proposed to select each year a number of men from those now enlisted in the army, or to enlist 100 men who have completed their junior year in college, and pay their tuition until they complete their university career. The enlistments will be for 18-month periods. Half of this time will be served while in college, and the remainder in army camps after graduation, where instruction will be given in army supply procurement problems. The plan will detail one-half of 1 per cent of the enlisted strength of the army, approximately 600 men, to educational institutions, and gives the enlisted men the same opportunity as officers detailed as students to educational institutions.

Fletcher Is Speaker At Arts Club Dinner

"The Fine Art of Being Somebody"

talk by Representative Brooks Fletcher, of Ohio, before members of the Washington Arts club at a semimonthly chafing dish dinner, last night at the club headquarters, 2017 I street northwest. Representative Fletcher stressed appreciation of art in everyday life.

Following his talk a humorous pantomime was presented under the direction of Mrs. Harriet Luthy. Those who appeared in the cast were Miss Grace Peters, Miss Anna Ide, James Otis Porter, W. B. Chilton and Glenn Madison Brown. Mrs. Maude Howell Smith, president of the club, presided.

BAPTISTS TO HAVE PICNIC.

Maryland Avenue Sunday School at
Chesapeake Beach Today.

The Maryland Avenue Baptist Sunday school will hold its annual outing today at Chesapeake Beach. One thousand persons are expected to attend.

The excursion will be an old-fashioned family picnic. Bathing, fishing and boating are on the program. Thomas A. Frayser is in charge of arrangements.

New Firms Enlisted In Credit Men's Drive

Ten firms have been added to the membership of the Associated Retail Credit Men of Washington in a city-wide campaign now being conducted by the association. They are: The Mobile Auto Supply Co., 1012 H street northeast; Nelson Furniture Co., 506 H street northeast; Hamilton dairy, 1436 P street northwest; F. S. Sidel, 628 Georgia avenue northwest; Salvatore Desio, 526 F street northwest; Dealers Motor Finance Co., 809 Hill building; Stanley Clothes, Inc., 1209 Pennsylvania avenue northwest; Pennsylvania Electric Co., 911 Seventh street northwest; Yamanaka Co., 1207 Connecticut avenue northwest; and Francis, Inc., 1742 Rhode Island avenue northwest.

The annual convention of the association will be held in Los Angeles, Calif., August 10 to 13. The Washington delegation will leave here the first week in August and visit points of interest en route.

SENATE INQUIRY TURNS TO ILLINOIS CAMPAIGN

Committee Promises Thorough Investigation of Spending After Congress Adjourns.

NEW WITNESSES TODAY

(By the Associated Press.)

A thorough investigation of the Illinois Republican senatorial primary is to be made by the Senate campaign funds committee after the adjournment of Congress, with the hearings probably held in Chicago.

This was reiterated yesterday by members of the committee, who said there would be a full airing of the charges recounted Saturday to the Senate by Senator Caraway (Democrat), Arkansas, and which previously had come to the attention of the committee.

Senator McKinley, of Illinois, who was defeated in the primary by Frank L. Smith, chairman of the State utilities commission, and who has been confined to his home by illness for several weeks, declined yesterday to make any comment on the charge that he spent \$1,000,000 in his effort to win re-nomination.

Allen P. Moore, campaign manager for Smith, has characterized as "absolutely silly" charges that \$2,000,000 was spent on behalf of the successful senatorial candidate, and also has denied the charge that E. J. Connelley, a Chicago banker, had contributed \$100,000 to the Smith campaign, coincident with the completion of a traction deal involving \$200,000 for which they were the bankers.

Turning back to Pennsylvania's \$3,000,000 Republican primary campaign, the committee will delve further today into the activities of the organization supporting Gov. Pinchot for the Senate, in his race against William S. Vare and Senator Pepper.

George W. Woodruff, attorney general of the Keystone State, and William B. Wright, one of his deputies, have been summoned for questioning on this phase of the case. They also will be asked about the expenditure of the \$130,000 fund raised by the Women's Christian Temperance union of the State for enforcement of the Armington-Snyder prohibition law after the State legislature had failed to provide a \$250,000 appropriation asked for by Gov. Pinchot.

The committee hopes to wind up the Pennsylvania inquiry within a few days and then will give its attention again to the political activities of the Antislavery league. An accountant already has been sent to Westerville, Ohio, headquarters of the league, to prepare a report on the receipts and expenditures of that organization since the intensive drive for enactment of the eighteenth amendment was begun in 1917.

Besides inquiring into the political workings of the national and State dry organizations, the investigators also are to give their attention to operations of the Association Against the Prohibition Amendment and for that purpose have issued a subpoena for William H. Stayton, head of that organization.

Wayne B. Wheeler, general counsel of the Antislavery league, has promised to submit "a barrel of information about the wet organizations that are fighting the eighteenth amendment." He asserts that the wet groups are raising more money than the drys in the present fight over prohibition.

Charles B. Light, Jr., Gets University Berth

Charles B. Light, Jr., a graduate of Western High school, has been appointed assistant professor of law at Washington and Lee university, it was announced yesterday.

He is the son of Mr. and Mrs. Charles Porter Light, of the Ontario apartments. Young Light graduated from Western in 1919. He then entered Virginia Military Institute, from which he graduated as third honor man in 1923. He has since received the degree of LL. B. from the Harvard law school.

Legion Post Plans Outing at Resort

Sergeant Jasper post of the American Legion will celebrate Independence day with an outing at Marshall Hall Saturday. Part of the activities of the day will consist of athletic events, prize dancing, a Charleston contest and a baseball game.

The Washington Boys' Independent band will give a concert on the excursion boat and at Marshall Hall. Miss Ethel K. Brown, the Pennsylvania drum major, is the only girl band leader in Washington.

DISTRICT HOLY NAME PLANS TO ENTERTAIN CATHOLIC PRELATES

Eucharist Congress Delegates
Are Expected Here in the
Next Few Days.

CARDINAL BONZANO'S
COMING IS UNCERTAIN

Meeting of Union Will Further
Consider Plans for
Reception.

A meeting will be called tonight of the District Holy Name union to further consider plans to entertain members of the hierarchy of other countries attending the Eucharistic congress in Chicago recently closed, who are expected to visit Washington within the next few days.

Cornelius Ford, president of the union, and chairman of the committee making arrangements for the anticipated coming of the prelates stated yesterday that the meeting would more definitely establish the program of the union.

Some doubt is expressed whether Cardinal Bonzano, papal legate to the congress, will visit the Capital. His plans, it was explained, are to return directly to New York, since he would not be able to visit all the cities that would expect him. However, it is said that he probably will visit Washington to pay his respects to President Coolidge.

Cardinals Faulhaber, of Bavaria, and Piffi, of Austria, are expected to visit the Capital. It was announced at the Austrian legation yesterday that Cardinal Piffi is expected. Just whether Cardinal Faulhaber will come or not is not definitely known. It was explained at the German embassy.

Archbishop Ruls, Here.

Among prelates attending the congress who have come to Washington is Archbishop Ruls, of Havana, who yesterday visited the Catholic university, where he was once a student.

Preparations for the entertainment of the visitors are also being made by the Knights of Columbus, James A. Sullivan, state deputy, said yesterday.

Cardinal Reig y Casanova, primate of Spain, will also visit the Capital before returning to his own country. It is said.

Y. W. H. A. to Stage Cabaret Wednesday

Members of the Young Women's Hebrew association will hold an "Argentine Revelry," a cabaret and dance Wednesday night at the Jewish Community center, 516 Tenth and Q streets northwest. Music will be by W. Spencer Tupper and his Mayflower orchestra.

Among the entertainment features are: Miss Audrey Clark in Charleston dancing; Miss Kate Smith, in songs and dancing, and Pemberton dancers in Spanish dances and the Argentine tango. Dancing on the roof of the Hebrew Home for the Aged, Eleventh and Spring road northwest, will be held every Wednesday night throughout the season.

BIG CROWD ATTENDS OPEN-AIR SERVICES

The Rev. H. G. Councilor Is
Preacher at Y. M. C. A.
Inaugural.

The influence of Christianity upon the human soul is the same as the effects of water upon a desert, changing it into a fertile plain teeming with life, the Rev. Homer J. Councilor, director of religious education of the Calvary Baptist church, told the gathering which attended the inaugural open-air service of the Young Men's Christian association in Lincoln park yesterday.

The open-air services, arranged under the auspices of the Young Men's Christian association, and a committee representing churches of the Northeast and Southeast, will continue until September 12. The gathering yesterday was the largest that has attended the first service in the eighteen years the services have been held. It was said. There were about 400 present.

The Rev. E. H. Meusel, pastor of the St. Matthew's Lutheran church, presided over the invocation and benediction. Wilbur Bailey was the organist. William R. Schmucker led the singing. Nelson M. Blake, of the Y. M. C. A., presided.

Charles B. Light, Jr., Gets University Berth

Charles B. Light, Jr., a graduate of Western High school, has been appointed assistant professor of law at Washington and Lee university, it was announced yesterday.

He is the son of Mr. and Mrs. Charles Porter Light, of the Ontario apartments. Young Light graduated from Western in 1919. He then entered Virginia Military Institute, from which he graduated as third honor man in 1923. He has since received the degree of LL. B. from the Harvard law school.

The Washington Boys' Independent band will give a concert on the excursion boat and at Marshall Hall. Miss Ethel K. Brown, the Pennsylvania drum major, is the only girl band leader in Washington.

Diphtheria Deaths Second to Measles

Measles, generally considered a minor disease of childhood, was responsible for twice as many deaths last month as the much-dreaded diphtheria, according to a statistical bulletin of the Metropolitan Life Insurance Co. Whooping cough was classed as second in importance of children's diseases for that month. The substantial decrease in the prevalence of diphtheria is attributed in the bulletin to the active campaign of immunizing children from the disease by the administration of toxin-antitoxin. Whooping cough was charged with three and one-half deaths to every scarlet fever death in May.

ASCENSION PASTOR'S ANNIVERSARY IS MARKED

Special Services Commemorate
Dr. Thomas W. Cooke's
Years in Ministry.

SERVED MANY CHURCHES

Special services were held at the Church of the Ascension yesterday morning, in commemoration of the thirtieth anniversary of the ordination of the pastor, the Rev. Dr. Thomas Worthington Cooke.

The Rev. William L. DeVries, canon of the Washington Cathedral, preached the sermon commemorating the occasion, and the church vested choir of 40 voices sang special selections under the leadership of A. C. Harned, choir master.

The pastor was ordained into the ministry at the church in 1896. After three years' service there, Dr. Cooke left Washington, serving as rector of churches in Lexington, Ky.; Clarkburg, W. Va., and Dayton and Cincinnati, Ohio. He won distinction as a re-builder of defunct churches, and most of his life in the ministry has been spent in reviving debt-ridden parishes. Dr. Cooke returned to this city in 1922, and was again made pastor of the present church by the late Rt. Rev. Alfred Harding, Bishop of Washington.

Brown Praises G. O. P. Treatment of Voters

William Brown, of Charleston, W. Va., was the principal speaker before the Women's National Republican Political Study club at the Phyllis Wheatley Young Women's Christian association yesterday.

Speaking on "America and the Two Great Political Problems," he lauded the Republican party in comparison with the Democratic party with reference to treatment of the negro, and outlined a method of cooperation between the local branch and State organizations of women in qualifying colored men and women for participation in the forthcoming congressional elections. A musical program was presented by Miss Josephine Johnson, Mrs. Olivia Neal, Mrs. Edna French and Frank Johnson. Mrs. Catherine Hawkins presided.

Why the South has economic health

SOUND prosperity arises only from the prosperity of many different types of industry. Sections of the country that are dependent upon one business or one crop sometimes have extraordinary prosperity; and they also have hard times. But it is those sections where production is diversified that have real economic health.

The present prosperity of the South springs from many different sources. This is seen from the record of freight carried by the Southern. Last year this traffic was made up as follows:

Products of agriculture and animals..... 10.65
Coal..... 28.90
Clay, gravel, sand and stone..... 10.22
Other mine products and minerals..... 3.62
Forest products..... 16.80
Manufactured products and miscellaneous goods..... 24.03
Manufactured in less than carload shipments..... 5.78

Just as the diversification of Southern industry has brought the South economic health, so also the diversification of the Southern's traffic should tend to stabilize its revenues and make its securities attractive to investors in the South.

CONGRESS PLANNING TO PASS FARM BILL AND QUIT SATURDAY

Senate Expects to Reach a
Vote on Relief Measure
Tomorrow.

HOUSE WILL DISPOSE
OF DEFICIENCY BILL

Important Legislation to Be
Postponed Until the
Next Session.

(By Associated Press)
With hope that farm legislation can be disposed of this week, Republican leaders of the House and Senate are preparing for adjournment of Congress Saturday.

This program contemplates postponement until the next and short session, of the rivers and harbors bill, coal legislation, the French debt settlement and a number of other matters of importance now on the calendar.

A final vote on the farm relief bill in the Senate is to be held tomorrow and with that idea in view House leaders are leaving Wednesday open for action on whatever measure the Senate puts through.

Hope to Win Coolidge Approval.

Administration leaders are to press the Fess-Tincher amendment to the House cooperative marketing bill with the hope that President Coolidge's approval of this farm relief plan will swing a majority for it as a substitute for the defeated McNary-Haugen measure.

Leaders of the farm group on the Republican side are dissatisfied with this substitute and predict that it will be rejected and that the only legislation that will meet Senate approval is the House cooperative marketing bill, which was approved by the Senate agriculture committee.

After farm legislation is out of the way, the Senate will turn its attention to the Dill radio control bill, providing for a separate government commission to control air communication, which was made a special order some days ago.

While the Senate is disposing of the farm bill controversy, the House will resume consideration today of the last deficiency bill with a view to a vote not later than tomorrow. After that there is no set program, as the House will be ready to adjourn as soon as the Senate has acted on that measure.

With Senate action on the deficiency bill, House leaders will be ready to resubmit the adjournment resolution, adoption of which was blocked recently under the leadership of Chairman Madden, who opposed fixing a date for adjournment until final action had been taken, both on farm relief and the deficiency measure.

\$29,113,427 to Enforce Dry Law in 1927 Asked

Lincoln C. Andrews, Assistant Secretary of the Treasury in charge of prohibition enforcement, has asked for \$29,113,427 for enforcement. Of this sum, \$29,113,427 is a recent supplemental estimate to be expended for:

Special alcohol squad, \$344,340; brewery squad, \$344,340; border patrol, \$587,500; special interdiction investigators, \$134,400; administrators forces, \$1,520,430.

In the item for administrators forces there is an estimate of \$200,100 for salary and expense allowance for 51 "under cover agents," each of whom are to receive \$3,600 and a travel and subsistence allowance of \$1,500.

The supplemental and the original estimates for enforcement for the next fiscal year total—\$13,560,000. Add to this the requirement for the coast guard, estimated at \$15,553,427, and the grand total will be \$29,113,427.

VETERANS' CLUB VISITS SHENANDOAH CAVERNS

Party of 300 Ride in 60 Cars
to Explore the Underground Wonder.

Members of the American War Veterans club and their friends, tonight last night after passing the 300 in number, returned to Washington visiting the Shenandoah Caverns and points of interest en route home. They were the guests of Hunter B. Chapman, owner of the Shenandoah Caverns, being entertained at a chicken dinner and taken through the caverns by special guides.

A silver loving cup was presented to Mr. Chapman by Lieut. Col. Fred E. Ryans, president of the club, on behalf of the club.

The party left the Orkney Springs, Va., hotel, yesterday morning after breakfast, followed by a visit to the shrine adjacent to the hotel. Before departing Col. Ryans presented a silver cup to Col. Cottrell, owner of the hotel, on behalf of the club.

Traveling as a caravan, the 60 cars were driven to the caverns and after exploring the underground wonder, the party broke up, taking various routes for home, most of them coming back by way of Winchester and Harpers Ferry.

Escorted by Red Scott, chairman of the Shenandoah Caverns, and workers wounded veterans from Walter Reed hospital were taken along as guests of the club, transportation being furnished by Lieut. Curtis Handley, a member of the club.

More than a score of prizes were awarded at the dance at Orkney Springs Saturday night and at the dinner at Shenandoah Caverns yesterday.

Lieut. Charles Riemer, secretary of the club, made practically all the arrangements for the caravan.

C. H. Scott Seeking Congress Nomination

Special to the Washington Post.
Elkins, W. Va., June 27.—Former State Senator C. H. Scott has entered the race for the Democratic nomination for Congress in the Second West Virginia district. He is said to favor modification of the Volstead act.

He makes the third entry, the other two being Roy York and Robert E. L. Allen, both of Morgantown. Mr. Allen was defeated for reelection in 1924 by Frank L. Bowman, incumbent.

Sidna Allen Plans To Open a Factory

Special to the Washington Post.
Danville, Va., June 27.—Sidna Allen, recently pardoned, is going into business at Leesville, N. C., near here. He is organizing a small company to finance a small cedar chest factory. He has been appearing at exhibitions showing specimens of his woodcarving.

WAR 'MOVIE' FILMS GROWING IN DEMAND, BELIEF OF OFFICIALS

Requests to Army for Prints
of Actual Scenes Is
Increasing.

REVIVAL OF INTEREST
DUE TO "BIG PARADE"

Producers Wish to Insert
Color and Accuracy, It
Is Explained.

Whatever the reason, American motion-picture "fans" are once more crying for pictures dealing with war. Evidence of this is seen in the number of requests to the War Department for films taken during the war.

The revival of interest in such pictures, these come from commercial producers who wish to insert actual "war stuff" in their own productions so as to give them a realistic flavor.

Just before and immediately after the world war, motion pictures based on war enjoyed great popularity. Then came a change. Apparently, the theatergoers wanted anything but war pictures.

The revival of interest in such pictures, according to film men, began with the "Big Parade."

Reediting Films Prohibited.
The mounting requests for official films and the manner in which some producers have treated such films has led the War Department to issue a ruling that these films must not be reedited by commercial producers. Hereafter the films will be sold under the following requirements:

No exclusive rights will accrue to any individual or company, subject matter will be used for no other purpose than depiction of historical or graphic events, complete pictures into which portions of War Department films may be incorporated must not depict military service in an erroneous manner and War Department films shall not be used in promotion of propaganda.

Color and Accuracy Desired.
War Department officials said that the apparent revival of interest in historical films has resulted in many requests for official films in order to lend color and accuracy to scenes produced.

In the case of a few pictures, however, producers have been inclined to take unusual liberties with titles for scenes in order to preserve continuity of story, resulting in use of scenes in a manner far different from real historical evidence recorded by the picture.

LOCAL COAL DEALERS NOT TO BRING BOOKS

(Continued from page 1.)
The coal dealers were against bringing their books, claiming it would amount to a closing down of business. A week's foreclosure of business would be the practical result, they held.

In another statement a picture was presented of the order of the Senate committee, in which a truck would necessarily be conscripted into service—a general moving scene, with the coal business and summer orders awaiting the pleasure of the Senate's scrutiny.

Mr. Whitford refused to say flatly that the dealers would refuse their books. He did not, he said, think it proper to anticipate what would properly be brought before the hearing.

Both Mr. Whitford and his clients are hopeful that they will be able to persuade the Senate committee to some other course than the one which has been threatened against them. Their discussion last night indicated their desire to avoid the appearance of any deliberate effort to affront the committee.

They stressed privately the injustice of the procedure of the committee and are resentful of the light in which they have been placed before the public. Plans have been made to set forth their position fully in full-page advertisements in Washington newspapers immediately after they appear before the committee.

As explained by one of the subpoenaed dealers, the result is to make "goats" of the group.

"There are about 100 coal dealers in Washington, all in competition one against the other. Why choose six with the apparent view to try to make goats of them for the other 94 to profit by?" he asked, adding:

"If there is something wrong with the coal business in Washington why not subpoena all the coal dealers? There is no justice calling six up to make examples of them while the others profit by their injuries."

That therefore is one of the principal reactions toward the latest move of the Senate committee. They feel their businesses would suffer while their books were in the hands of the Senate. They themselves would be disgraced and left unprotected against competition. They would provide "examples" while others profited.

Offered Profit Report.
The dealers also state that they offered to submit profit and loss statements from their books to the Senate committee, which would be checked against their books by an auditor appointed by the committee. To this, they said they received no reply.

Woman, 90, Tells Prince Of Old Days in Castle

Rock Island, Ill., June 27 (By A. P.).—A wrinkled, Swedish woman from Galesburg, Ill., was happy tonight, for she had shaken hands with "her prince" and chatted with him of days in the Stockholm castle when she was a member of the royal household.

When he was told of Mrs. Augusta Lindstrom, 90 years old, who had driven over to speak to him, the future king of Sweden grasped her hand warmly. There followed an exchange of reminiscences, the prince holding her hand. The old woman's eyes filled with tears.

"She told me," said the prince later, "that she heard the cannon boom when I was born, and she knew it was a prince. It is the custom to fire 42 salutes if a prince is born, and 21 is a princess."

"And that is the only instance in Sweden in which men have more rights than women."

ELLIOTT PROVIDES BAIL AFTER DEATH OF WIFE

Millionaire, Connected With
G. O. P. National Campaigns, Is Released.

Clearwater, Fla., June 27 (By A. P.).—Eugene Elliott, wealthy St. Petersburg real estate operator, held as a material witness in his wife's death last night, was released from the county jail here early tonight under \$25,000 bond.

Elliott was brought here today from St. Petersburg for detention pending the outcome of his wife's inquest, which will be completed tomorrow.

St. Petersburg, Fla., June 27 (By A. P.).—Eugene Elliott, millionaire Florida real estate developer, today was removed from the city jail here to the county jail at Clearwater. No charge has been preferred against Elliott.

Madeline, the 16-year-old daughter of Mr. and Mrs. Elliott, who was taken into custody at the preliminary investigation, was released in custody of the family attorney. The negro maid and butler in the Elliott household are held as witnesses.

Hospital attaches said the wife's skull had been fractured along the side from forehead to base. She was brought to the hospital by Elliott's chauffeur.

Investigation disclosed that on Saturday Mrs. Elliott had instituted divorce proceedings against her husband. In her bill of complaint she is said to have charged cruel and inhuman treatment and infidelity.

Elliott was widely known as a college football player and amateur boxer. Elliott was connected with national committees in the Roosevelt, Hughes and Harding campaigns.

Elliott's bank account was attached in April, 1925, by Federal internal revenue agents, who charged his failure to pay \$500,000 alleged to be due from his 1924 income. The case has never been settled.

SHIP BOARD TO RUN 5 LINERS TO ENGLAND

Weekly Sailings From Each
Side Promised; London
Final Terminal.

New York, June 27 (A. P.).—Establishment of the American merchant lines to operate an independent passenger service between New York, Plymouth and London, with five shipping board vessels, was announced today. Each of the ships, previously operated as fast cargo carriers, has been refitted with accommodations for 74 passengers.

The sailing schedule will be: sailings from New York every Thursday, and from London every Friday. Ships carrying the United States mails on the eastbound voyages will stop at Plymouth on the eighth day and will arrive in London on the ninth day.

The vessels are 16,000 tons displacement, 437 feet long, 58 feet beam, and make about fifteen knots. They include the American Banker, American Farmer, American Merchant, American Shipper and American Trader.

Child Runs to Mother And Is Struck by Auto

James H. Bottonello, 2 years old, 1214 H street northeast was seriously injured last night when he ran across the street and was struck and knocked down by an automobile driven by Richard I. W. Stuart, Jr., 912 I street northwest, while crossing the street in front of his home. He was removed to Sibley hospital in Stuart's automobile and treated for bruises about the abdomen and foot and possible internal injuries.

According to police the child was running across the street to join his mother when the automobile struck him. Stuart was taken to the Ninth precinct station following the accident, but was released when the child's mother exonerated him from any blame for her son's injuries. She said the child darted in front of the wheels of Stuart's automobile before he had time to stop.

Lawrence W. Lawson Sought.
Police were asked last night to look for Lawrence W. Lawson, 20 years old, of 1239 Potomac street northwest, who failed to return to a fishing trip yesterday. Search was requested by his brother.

PROVINCES IN SPAIN READY FOR REVOLT AGAINST DE RIVERA

Everything Prepared for a
Military Uprising to End
the Directorate.

POWERFUL OPPONENTS
OF PREMIER AT LARGE

Members of Junta Gathered
at Madrid; Significance
in Their Movements.

(Special Cable Dispatch.)
Madrid, June 26, via Spanish Frontier (Delayed).—Despite the government's attempts to prevent publicity being given to the conspiracy to overthrow the Spanish directorate, the sudden flare of rebellion is the sole topic of conversation in the capital.

As far as can be ascertained, the popular sympathy is aflame for the conspirators, who, it now is confirmed, are under guard to a number well over 200.

The secret police of the directorate still are scouring Madrid, on the trail of the plotters, under the direction of Minister of the Interior Martinez, who is famed for his iron rule in Catalonia in 1923 during the separatist troubles, when he established and put into effect a grim order that two rebels should pay with their lives for every loyalist killed by the separatists.

Manifesto by Revolvers.
The greatest secrecy surrounds the recent manifesto calling for the suppression of the directorate and the overthrow of the cortes, which, falling into the hands of the police, precipitated a lightning round-up of the conspirators. Those who have seen the document, however, report that it is a carefully phrased, damaging diatribe against the directorate, evidently written by well-informed persons.

Reports seeping through from Tarragona, Cadiz and other provinces, despite the eastern censorship, state that every phrase is a ringing challenge to the directorate. All communications with Barcelona and Valencia, promptly cut by orders of the government when the plot was discovered, only now are being restored, under the most careful censorship, however.

Contrary to the indications yesterday that Gen. Aguilera and Col. Segura Garcia were caught, the rebel pair seem to have succeeded in hurriedly leaving Madrid and have headed for some of the alleged insurgent provinces.

Powerful Generals Met.
Their whereabouts at present are not known and the government's dragnet has not caught them as yet.

A group of the most powerful generals, who opposed Gen. Primo de Rivera in the recent trouble between the directorate and the junta now are here. Among them are Gen. Cavalcanti Berenguer and Rear Admiral Antonio Magaz y Piers, who is ambassador to the Vatican. All are here presumably on private business and, although they are not implicated in the plot thus far, their presence is believed to be fraught with significance especially if the conspiracy has succeeded.

Boy-cd Is Reported On Way to America

(Special Cable Dispatch.)
Berlin, June 27.—Capt. Karl Boy-cd, a member of the German embassy at Washington during the war, is reported on board the Columbus, sailing to America with his family. The consulate at Berlin says that no visa was granted to them there, but it may have been obtained at a local consulate in Bavaria or Hamburg.

THREE LABOR GANGS LAID OFF BY DISTRICT

Between 40 and 50 Men Are
Affected, Because of
Contract Work.

Between 40 and 50 laborers have been laid off from the highway department of the District, due to a change from day labor to contract work.

Under the new system of letting contracts for alley repair work, the contracting companies furnish their own laborers. The men affected worked exclusively in the three alley gangs employed by the District.

C. B. Hunt, engineer in charge of highways, stated last night that every effort has been made to place the dropped workmen in similar work with the contracting companies. He expressed the opinion that few of those losing their jobs failed to find work.

Between 20 and 30 charwomen have also been laid off from work in the District building during the last two weeks.

Prisoner Jumps Off Steamer and Escapes

Breaking through the window of the cabin in which he was confined, a man believed to be Lester Spencer, of Washington, who was arrested at Marshall Hall yesterday charged with selling liquor, jumped from the steamer Chant Macles on last night and disappeared off Hains point. He is believed to have reached shore. The steamer did not stop.

The man was arrested by Revenue Agent R. M. Quinn, who says he took several half pints and two pints of alleged liquor from the man, and placed in the steamer cabin to be brought to Washington.

MAN IN BED IS SHOT FOLLOWING QUARREL

(Continued from page 1.)
room and returned with a revolver. He stood in the doorway and without speaking a word, leveled the revolver and fired three shots, only one taking effect. One shot was buried in the wall and the third shattered a window. He turned and ran down stairs brushing past Mrs. Thompson, and escaped by climbing over a shed in the rear of the house.

H. B. Cusick, 820 Eleventh street, searching the yard a few hours later found the revolver near the shed. At the report of the revolver neighbors called the police, and Detectives Frank Varney and Steve Brodie, of headquarters, with Ninth precinct police, were sent to the scene.

Edward Pierson, 620 Eleventh street, took the wounded youth to the hospital in an automobile. Fisher, an hour after the shooting, was reported to have been seen in a motion picture theater in H street northeast.

LYNCH'S MARE WINS ROCK CREEK HURDLES

Mary Barrington Defeats
Becky Sharpe at Park
Sunday Jumps.

E. J. Lynch's mare, Mary Barrington, defeated Capt. Royden Williamson's timber topper, Becky Sharpe, at the Rock Creek park jumps yesterday, in a jump-off of a tie for the temporary possession of the Rock Creek challenge cup.

Mary Barrington was ridden by Robert L. Robey for a perfect score. In the contest that followed the jump-off, Mary Barrington again took first honors, although credited with two faults.

F. C. Montuori's Swiftly, ridden by its owner, placed second in the weekly hurdles tilt. Virginia, owned by Miss Madeline Aleshire, carried off third honors. Judges in the contest were S. J. Henry, W. H. West and F. Hine.

The temporary cup will be retained by E. J. Lynch until Mary Barrington's score is equaled or surpassed by another horse. The cup will go to a permanent owner at the National Capital horse show next spring, when the scores made from week to week are counted up and averaged and a final contest held. Each Sunday ribbons and other prizes are awarded the first three horses. A crowd of enthusiastic horse lovers is always on hand to witness the contests.

The scores made by the thirteen entries were as follows:
Place, Name, Score, Faults.
1. E. J. Lynch, Mary Barrington, 2, 0.
2. F. C. Montuori, Swiftly, 4, 0.
3. Madeline Aleshire, Virginia, 4, 1.
4. R. H. H. Hine, Becky Sharpe, 4, 1.
5. R. H. H. Hine, Becky Sharpe, 4, 1.
6. A. R. Hine, Becky Sharpe, 4, 1.
7. J. H. Hine, Becky Sharpe, 4, 1.
8. J. H. Hine, Becky Sharpe, 4, 1.
9. J. H. Hine, Becky Sharpe, 4, 1.
10. J. H. Hine, Becky Sharpe, 4, 1.
11. J. H. Hine, Becky Sharpe, 4, 1.
12. J. H. Hine, Becky Sharpe, 4, 1.
13. J. H. Hine, Becky Sharpe, 4, 1.

Rabbi David Levine Dies in New York

Special to the Washington Post.
New York, June 27.—Rabbi David Levine, 50, of the Temple House of God on Washington Heights, died here today at Mount Sinai hospital after a year's illness.

Rabbi Levine was born in New York city and received his theological education at the Jewish Theological school. His first pulpit was in Syracuse, N. Y., in 1902. The next year he was called to Portland, Ore., where he occupied the pulpit of Rabbi Stephen S. Wise while the latter was in Europe.

He was rabbi of the Temple Emanuel-El, Spokane, Wash., from 1904 to 1917.

In 1917 he became rabbi in Temple Emanuel-El in Brooklyn. In 1922 he moved to Temple Emanuel-El, Yonkers, and in 1925 accepted the call to the Temple House of God.

MRS. CORA R. LLUFRIO DIES

Funeral Services Tomorrow for
Lifelong Capital Resident.

Mrs. Cora Richey Lufrio, 73 years old, a lifelong resident of Washington, died yesterday morning at Providence hospital. Requiem mass will be said tomorrow morning at 9 o'clock at the Shrine of the Sacred Heart. Interment will be in Glenwood cemetery.

Mrs. Lufrio was the widow of John W. Lufrio and the daughter of the late Hiram Richey. She is survived by six children.—The Rev. C. Edward Lufrio, C. S. P., of Chicago; Capt. John W. Lufrio, of Camp Lewis, Washington; Mr. V. Lufrio, of New York; Miss Mary Lufrio, Miss Cora Lufrio and Mrs. Peter Valaer, Jr., of this city.

D. I. WALSH DENIES HE IS A CANDIDATE

Plenty of Time, Former Senator Says, to Enter the
Senate Contest.

Worcester, Mass., June 27 (By A. P.).—Former Senator David I. Walsh, returning tonight from Chicago, explained his "unavailable absence" at the Democratic gathering in Worcester last night which had expected him to announce his candidacy for the Democratic nomination for United States senator. Asserting that he "did not intend to come to Worcester to make any statement of my candidacy," he said:

"I would have been glad to have attended the meeting and to speak but the congestion of trains in leaving Chicago made it physically impossible to reach Worcester in time. I do not see any need of haste in announcement of candidates when nomination papers need not be filed until August."

Many of those present believed that the statement of former Senator A. Owsley Stanley, of Kentucky, that at no time

WOMEN PARADERS, HISSED YEARS AGO, WILL MARCH AGAIN

London Suffrage Procession Expected to Be a Very Impressive One.

PEERESSES WILL FORM IMPORTANT CONTINGENT

Bright Costumes to Contrast With Shabby Gowns in Noted "Mud March."

London, June 27 (By A. P.).—Dame Millicent Fawcett, the 79-year-old president emerita of the National Union of Suffrage Societies, will march in the great parade British women are to hold July 3 to agitate for universal suffrage for English women on the same terms as men have the ballot. It will be a very different parade

"Churchill Would Edit Gospel"—Lloyd George

London, June 27 (By A. P.).—Former Premier Lloyd George in an address in the Castle Street Baptist chapel today took as his subject the effect of Christ upon the outlook of today.

"If Christ had been here during the recent general strike," he said, "it is certain he would have been excluded from the British Gazette (the government organ during the strike). Churchill's blue pencil would certainly have cut right through the Sermon on the Mount. . . .

"The gospels of the twenty-first century would have been compiled not from the recollections of His disciples, but from notes taken by the police who attended His address. . . .

"Christ, too, would in all probability have supported the archbishop's appeal for conciliation instead of force in dealing with the strike, and would, therefore, have been excluded from the liberal shadow cabinet."

MRS. ANNIE BESANT AVERTS THE STORM OVER HER PROTEGE

Silences Attacks Made on Krishnamurti, the New World Teacher.

SPOKE ONCE, SHE SAYS, WITH VOICE OF CHRIST

Veteran Theosophist Asserts She Has Had Revelation on Second Advent.

London, June 27 (By A. P.).—Mrs. Annie Besant apparently has silenced attacks by theosophists on her proclamation of Krishnamurti as the great teacher, through whom a new dispensation will be revealed to the world. There have been some dissenters in theosophical meetings she has attended in London, but the venerable high priestess seems to have averted the storm which threatened before she arrived in England with the young man who heads the Order of the Star in the East, of which Mrs. Besant is guardian.

Mrs. Besant believes the young Hindu teacher was chosen when he was a child to be the vessel through which the Christ, or the Lord Maitreya of the Hindus, is to make known His will.

In discussing Krishnamurti with a representative of The Associated Press, Mrs. Besant said: "Christ's ministry lasted but three years. His body was crucified. But the Great Spirit lived, and, assuming a different form which was able to pass through doors and vanish at will, he appeared to his disciples in various places. He told them he would come again."

Second Coming Delayed.

"This coming has been hastened slightly because of the present world crisis. That has been revealed to me. Again the Christ, the Lord Maitreya or the great world Teacher, as you will, has chosen to manifest himself in one who, like the man Jesus, is of a despised and downtrodden race. I was told this while Krishnamurti was still a child."

"He first gave evidence of his mission on what I regard as a historic date, December 28, 1924, at the jubilee of the Theosophical society in India. He is an eloquent and fluent speaker in his normal condition, but suddenly he spoke with a voice not his own. A hushed spell came over that huge gathering of some 20,000 persons as, like one inspired, he gave a message to prepare for the second coming of Christ. So far that is the only occasion of which Krishnamurti has spoken in public as the voice of Christ."

Can Travel in Spirit.

Mrs. Besant explains that theosophists, who through purity and spirituality of life have cultivated the power to have their spirits leave their bodies and wander in heavenly regions, understand to what degree Krishnamurti possesses this faculty. From the boy's earliest childhood he was able to send his spirit from his body at will, and while his body slept his spirit was away gathering wisdom which he has recorded in his writings. But she is insistent in stating that only once has Krishnamurti spoken with the voice of Christ.

The order of the star of the east, in which Krishnamurti and Mrs. Besant figure prominently, holds that the world in its pain and sorrow is calling for a comforter and savior in every religion, every land there is a growing expectation of the advent of a great son of God.

RESTAURANT ROBBERED IN DAILY RUSH HOUR

(CONTINUED FROM PAGE 1.)

caped with approximately \$13. The Rev. F. X. Bischoff, pastor of the Church of the Nativity, 6000 Georgia avenue northwest, told police yesterday that thieves had gained entrance by breaking the glass in a basement window, forced open an offering box near the church altar and stole \$3.

Sacramental wine and \$5 in change was the loot of thieves, who broke into the Westminster Presbyterian Memorial church, 430 Seventh street northwest, early yesterday. Levy D. De Pue, secretary of the church, who discovered the robbery, said the wine was to be used at the services yesterday morning.

George Palmer and Frank E. Dowell, 1615 L street northwest, reported the theft of clothing and jewelry, totaling approximately \$200, from their rooms. Richard Lawson, 109 1/2 K street northwest, lost jewelry and money aggregating \$30. Numerous other thefts of money, clothing and jewelry, totaling approximately \$500, were reported to police.

Raiding Parson Taken With Woman in Auto

Buffalo, N. Y., June 27 (By A. P.).—Charged with outraging public decency, the Rev. Littleton E. H. Smith, widely known as the "Raiding Parson," was arrested today with Mrs. Eva Jacka, wife of an usher in his church. They will be tried in Kenmore tomorrow. A patrolman arrested them in a parked, unlighted automobile.

Mr. Smith is pastor of the Ontario Street Presbyterian church. On numerous occasions he accompanied prohibition agents in raids on saloons and road houses. Maj. Eugene C. Roberts, prohibition administrator, admitted tonight that the Rev. Mr. Smith had been a paid Federal dry agent since January 1.

Women Are Terrified By Series of Attacks

Special to the Washington Post. Canton, Ill., June 27.—Women and girls of this city are again locking themselves in their homes and refusing to venture on the streets after dark unless guarded by men. The man who has attacked and criminally assaulted a score of women and girls is operating again after a lapse of several weeks. Two of his victims died of their injuries.

His latest victim is Mrs. Mattie Kenks, 75 years old. She was returning from a call on a nearby neighbor shortly after dusk last night, when the man sprang from a clump of bushes, knocked her insensible and dragged her into the shrubbery. Although she is seriously injured, physicians say she may recover. Like all other victims, she did not see her assailant and is unable to give the police any clue to work upon.

500,000 SEE OUTSIDER CAPTURE PRIX DE PARIS

King and Queen of Spain Are Guests of President as Take My Tip Wins.

IS BACKED BY AMERICANS

Paris, June 27 (By A. P.).—The Grand Prix de Paris, blue ribbon event of the French turf, run at Longchamps today, ended at one and at the same time the Paris "grand week" and the Paris season.

Nearly half a million persons attended, the greatest crowd ever at a sporting event in Paris. So crowded were the promenades and grandstands that the parading mannequins, exhibiting frocks that Paris designers intended the world shall wear, passed unnoticed, or withdrew from the crush.

The outcome of the race, like that of last year, was a complete surprise, for James Hennessey's Take My Tip, a little known and little touted outsider, forged to the front in the last few yards to beat the favorite Biribi, owned by S. Guthmann, by a head. J. Wittouck's Bôis Josselyn, was third, while A. K. Macomber's Masked Ruler finished a close fourth, just outside the money. Twenty-two horses ran.

The Grand Prix was run over a course of 3,000 meters and was worth 669,000 francs to the winner. Take My Tip was at 63 to 1. The King and Queen of Spain were the guests of President Doumergue in the presidential box. Not a few of the thousands of Americans at the track were said to be considerably richer tonight, since Take My Tip had such a home-like sound it caught the American fancy.

As to fashions, the white coat frock and white hat of Queen Victoria took first honors with the fashionable women who thronged about the presidential box. To honor the Spanish sovereigns some of the mannequins wore mantillas over their heads, or wide black hats draped with lace.

Pale greens in delicate shaded silk chiffons that had already made their appearance at the Prix de Drags Friday were again in strong evidence.

RETREATS WIN PRAISE OF CARDINAL LEGATE

Mgr. Bonzano Preaches at Franciscan Institute for Laymen.

Chicago, June 27 (By A. P.).—In a woodland amphitheater at the laymen's retreat of the Franciscan order, before an altar erected in the triangle of three elm trees, John Cardinal Bonzano, papal legate to the Eucharistic congress and cardinal protector of the Franciscan order, bestowed a papal benediction on 5,000 Catholics who gathered there today at a pontifical high mass.

Archbishop Albert Daeger, of Santa Fe, the only archbishop in the Franciscan order in the United States, said the mass.

"This is a great democracy," the cardinal said in his sermon. "Here, any one may enter this laymen's retreat, sever himself from worldly matters and commune with his God. In Europe only the very wealthy and rich can go to such retreats. It is a banquet of spiritual nourishment."

He likened the retreat to the getting up of steam by a locomotive, saying that the retreat serves to "get up spiritual steam to push you on in your work and make your faith stronger."

Education Possible For 'Grown-Ups' Only

Philadelphia, Pa., June 27 (By A. P.).—Grown-up persons are the only ones who can be educated. The young may be schooled, but can not "get education," in the opinion of Dorothy Canfield Fisher, authoress, of Arlington, Vt. Mrs. Fisher spoke before the National Education association at the informal opening of the National Education association convention.

Mrs. Fisher said education must be gained through life experience, and that no young person can have it. She added that this has been lost sight of "through our nervous schooling of the young."

Mrs. Davis Is Freed In Poison-Plot Case

Elwood, Neb., June 27 (By A. P.).—Mrs. Kate Retford Davis was today freed of charges of aiding and abetting her husband, Bert M. Davis, in the alleged poison murder of his first wife, Mrs. Blanche Davis, at Beaver City, last August.

A jury in district court here returned a verdict of not guilty at 10:55 this morning after 41 hours of deliberation. The State contended she plotted with Davis to administer poison to Blanche Davis so they could wed.

Here's Good News

for all those people who were disappointed because our last supply of this extraordinary Hartmann Trunk was sold out so quickly.

A New Supply Is Here

at the same FIFTY DOLLAR price

—and at fifty dollars it means a conservative saving of ten dollars—for this trunk has all the appearance, all the convenience and all the strength of trunks selling for sixty and sixty-five dollars.

Judging from the way the last shipment of this trunk sold out, we strongly recommend that this time you call and select yours early.

MR. REED ON THE TARIFF.

In the course of his speech against the McNary-Haugen bill, Senator Reed, of Missouri, said:

For many years our government has pursued the iniquitous and indefensible policy of denying to the people of the United States their natural right to buy where they choose and sell where they desire. A policy of robbery under the guise and form of taxation has existed for many years.

This is a reiteration of the old doctrine of free trade, which the scholars and students call "laissez faire," or "let alone." It has been abandoned by almost every commercial country in the world; more especially since the close of the world war.

This ancient doctrine of "laissez faire," or "let the people buy and sell where they will," was supported by British public opinion after Britain was industrialized. It suited the interests of Great Britain and was defended by British economists in the belief that no nation could compete with Britain. But Britain has abandoned free trade, and now protects its industries.

When the United States asserted its independence, almost the first thing it did was to notify Great Britain that the United States did not propose to be compelled to buy all its manufactured commodities in England, but intended to make them here in the United States. Congress asked the people of the United States to make their own commodities, and it helped them by protecting them against foreign competitors. Great Democrats framed a protective tariff.

Had the people of the United States followed the advice of the senator from Missouri, and complained because Congress proposed to interfere with the right of the people to buy and sell where they pleased, there would be no industrial United States.

Protection was a wise method of building up an industrial America; and it created here the greatest market for agricultural products in the world. In the years that have intervened since the adoption of this beneficent policy, the principle has been adopted by every industrial nation in the world.

No political party, no statesman who cares for his future, dares go before the American people and preach this doctrine of "laissez faire" or free trade. No tariff law has ever embodied such a doctrine. The 1913 tariff law, for which the senator from Missouri voted, was not a free trade law. It did not permit people to "buy where they choose and sell where they desire." Those words are mere oratory. They are fanciful.

The old theory of free trade has been exploded. Protection is a function of government, and prevents the disaster consequent upon unfair competition between countries upon different economic and living levels. No informed economist disputes this fact.

Of course worry shortens life, but it seems to afford some people their only pleasure.

THE INHERITANCE TAX.

The United States Supreme Court has granted the State of Florida permission to bring suit against the Secretary of the Treasury and the commissioner of internal revenue to test the constitutionality of the Federal estate or inheritance tax, which is incorporated in the 1926 Federal revenue tax act.

The purpose of the action is to enjoin the secretary of the Treasury and the commissioner of internal revenue from undertaking to collect the Federal estate or inheritance tax in the State of Florida on the ground that it is a violation of the Federal Constitution, in that the tax is not uniform, as required by section 8 of Article I.

The claim is made, and was made when the bill was before Congress, that the act invades the sovereignty of Florida and other States. Florida's constitution prohibits the imposition of an inheritance tax. If the Federal estate tax is imposed upon Florida and the refund of 80 per cent as provided by the act is enforced, Florida will derive no benefit unless it amends its constitution. The Federal estate tax is looked upon as an attempt at coercion of a State.

We're a queer lot, and a man will be careful for his new car's sake when he won't for his own.

LETTUCE STANDARDS.

One ground of complaint raised by the average consumer of farm products, especially vegetables and fruits, is the variability of the container or box, and the quality of the contents. Lettuce, asparagus, oranges and many other products of the soil are sold by the box or crate; and the consumer is obliged to take the word of the seller that the container is of full size and the quality up to grade represented. It is unfair that the rule

of "caveat emptor" should be applied in all cases, because the average purchaser is unable to know the facts.

The Department of Agriculture has recently established certain rules to govern the sale and purchase of lettuce. The revised definition of the department's grades is specific and certain, so that the purchaser may be on his or her guard; the margin of poor or bad lettuce in each container must be specified; and the words usually employed in the sale of lettuce are well defined.

A "box" of asparagus or lettuce, a "crate" of oranges or a "container" of any other farm product means nothing to the purchaser, unless those words are specifically defined by the Department of Agriculture. A standardization of containers all along the line would benefit both seller and purchaser.

How many, many cases of appendicitis in the old days were diagnosed as green apples.

FARMERS' COOPERATIVES.

The Department of Agriculture reports that farmers' cooperative organizations in the United States gained more than 2,000,000 members from 1915 to 1925. The largest increase was in the Southern States—from Virginia to Texas. The smallest increase was in the Pacific group.

The first effort of the Department of Agriculture to gather statistics on the extent and growth of farmers' cooperative marketing associations was made in 1922. It was found then that there were 8,313 associations handling grain, dairy products, live stock, fruits and vegetables, wool, cotton, nuts, poultry, forage, tobacco and miscellaneous commodities. Of these cooperative marketing associations, 6,639 were doing a business of about \$1,181,289,000 every year.

Since 1922 the number of farmers' cooperative marketing associations has increased to more than 9,000, and the total annual business carried on has increased to about \$2,000,000,000.

Cooperative marketing is employed more in the west north central and east north central States than in any other section. More than 69 per cent of all the farmers' cooperatives are in those States. The middle Western and mountain States have only about 11 per cent of the cooperatives. The largest business is in grain, with dairy products and live stock next in order.

In 1922 there were 1,139 cooperative creameries in the United States doing a total business of about \$127,800,000 each year. Minnesota led with more than 460 associations; Iowa came second with 195 associations. Since 1923 the number of creamery cooperatives has increased, as well as the volume of business transacted.

It would appear that if all producers of corn, wheat and other basic commodities would join or form a cooperative marketing association, their problem might be solved.

Few men get to be great leaders unless they are frenzied enough to expect too much.

MOTOR BUS REGULATION.

The Interstate Commerce Commission is about to embark upon an investigation into the motor transportation industry which may have a decided bearing upon the future development of motor traffic on the highways. The commission proposes to make the investigation with the object of recommending legislation, if such is deemed to be desirable, for the regulation of motor bus operation in interstate commerce.

Hearings are to be held in thirteen cities, beginning in Chicago on July 27. It is hoped that the recommendations of the commission may be ready to submit to Congress upon its reassembling in December.

In order to aid the survey in every possible manner the American Automobile association announces that it has placed all its facilities and resources at the disposal of the commission. Local and State members of the bus division of the association will send representatives to the hearings fortified with all the data available.

The final meeting will be held in Washington in September, when a general summary of the conditions as developed through the hearings will be presented by the operators of buses in all sections of the country.

The competition of motor buses with the railroads has made serious inroads into the receipts from passenger traffic. Some States exact heavy taxes for the operation of buses, but in many others they are as free to use the highways as are ordinary pleasure cars.

For some time past there have been movements in the direction of Federal regulation, but it was not until the announcement of the commission of its intention to make this survey that anything definite had come from the discussion of the problem.

Death is much like other things. It seems slow to molest people who aren't afraid of it.

UNCLE SAM'S REAL ESTATE DEAL.

The Interior Department is facing an interesting problem growing out of the sale of 40 acres of Florida real estate. Some years ago the government through presidential proclamation restored to the public domain a tract of 40 acres of land near Miami, which had previously been reserved for use of the coast guard. When it was decided that the tract was not needed for the purpose for which it had been withdrawn it was open to settlement under the homestead law. Lewis G. Norton squatted on the property and later applied for a patent under that law. But the Interior Department seems to have ignored his application. Instead, the land was converted into a town site and lots were sold and the department realized something like \$400,000 from the sale.

The squatter was determined to maintain his rights in spite of the fact that the government persisted in ignoring his claims. He carried his appeal to the courts, and the United States district court at Jacksonville has rendered a decision which sustains the right of Norton to the lands. It is understood that the value of the "Harding town site," under which name the property is recorded, is upward of \$1,000,000, and the decision of the court upholding the claim of the homesteader will compel the department to appeal the case to the Supreme Court or compromise with the claimant. In the meantime those who have purchased lots find their titles clouded, and in view of the provision in

Article V of the Constitution which declares that "No person shall be deprived of life, liberty or property without due process of law," the Interior Department, which has been ordered to return the property, is in for a lively fight with the "squatter" as well as with the purchasers of the beach front lots.

The first Americans, however, kept their teeth fine and strong by chewing parched corn instead of gum.

POTASH DEPOSITS.

It is the expert opinion of geologists that the potash deposits in the United States, if developed, are sufficient to supply this country with all the fertilizer the country needs. When the 1922 tariff bill was being framed an effort was made to place a reasonable import duty on foreign potash in order to give American capital and enterprise an opportunity to develop an American potash industry of magnitude; but the effort failed.

The war furnished complete protection; but when the war was over the German and French producers controlled the world markets, including the markets of the United States. Whatever progress was made in the direction of an American industry was largely lost by reason of free foreign competition and control.

Congress has agreed to a bill providing for an appropriation of \$100,000 each year for four years, to enable the Interior and Commerce departments to determine the location, extent and mode of occurrence of potash deposits in the United States, and to determine the best methods of developing those deposits.

If the United States could be made independent of foreign sources for its potash, it would save millions of dollars for the farmers and growers, who use immense quantities of that commodity.

If inanimate things can't think, how does a latch key know which pants you are leaving at home?

DEPORTATION OF ALIENS.

The House has passed a bill providing for the deportation of certain aliens. It amends the act of 1917 regarding the regulation of the immigration of aliens.

The bill provides for the deportation of an alien belonging to penalized classes at any time within five years after entry; an alien who entered the country by eluding officials; an alien who remains in the country a length of time longer than the law allows; an alien who after seven years is a public charge; an alien who becomes an idiot, feeble-minded or insane or otherwise incapacitated; an alien who is convicted of a crime for which he is sentenced to prison; an alien who has violated the white slave act or the laws against narcotics; an alien who promotes the social disease, and an alien who harbors any alien liable to deportation.

This is not an expulsion, but a deportation bill. It rewrites, codifies and enlarges the present deportation clauses of the immigration laws and amplifies some of the clauses. If the United States is to restrict the entry of immigrants and exclude criminal, insane, pauper and smuggled aliens, it must, of course, have power to deport aliens of these categories who are apprehended in this country.

Another bad feature of the divorce evil is that you can't keep a cook now even by marrying her.

THE PEACH INDUSTRY.

The Department of Agriculture is making a comprehensive survey of the peach-growing industry of the United States. This survey will deal first, with production, competition and marketing; second, with the cost of production, and third, with the result of the survey of the crop of 1924.

It is stated that improved methods of transportation have placed the peach-growing industry on a national basis. Growers must keep pace with new methods of distribution and marketing if they are to maintain themselves on a sound economic basis. Plans must be laid several years in advance.

Peaches from southern and central Georgia are first to arrive in the markets each season. The fruit begins to ripen the latter part of May and shipments increase until the peak is reached about the middle of July. Then other States contribute to the supply until the season closes in October. Shipments from Michigan and New York come last.

Grades, quality, commissions, freight rates, kinds of containers, condition of fruit, all affect the net return to the growers. The peach industry has developed enormously within the last ten years. Prices are not influenced by legislation or act of Congress, but wholly by economic conditions.

Milk consumption last year in the United States reached the highest point in the nation's history—more than 54,326,000,000 pounds. The milk and cream industry of the United States is on a profitable basis. That is because the marketing is organized.

There's no agreement about it, but of course Europe will keep on borrowing for much more than 62 years.

The Worst Story I Heard Today—By Will Rogers

The Worst Joke I heard today was told to me by Shanley, or Shan, as all his friends know him. He is now from Los Angeles, and is the Proprietor of the Continental Hotel and a bunch of others. He used to be up in Frisco, but that city got too fast for Shan, so he went south. I used to stop with him all the time in the old days when I was playing the Orpheum Circuit, and we were mighty glad to hit Frisco.

Shan hasn't changed a thing only his suits, and he always did that. Rome didn't fade him any more than Market Street. The great Roman Coliseum was just another Ball Park to him. He was a big favorite on the trip, because he was what he is. He wasn't playing any part. He was just Shanley. He pulled a great one on the King of Belgium. He told him, when they were asking him to come to America and California, "Sure, come out to Los Angeles and stop at the Biltmore, and then come over to the Continental for atmosphere." Shan pulled another Nifty on all of them. He said, "Yes, we all cater to the best people. But we don't get 'em."

PRESS COMMENT.

Something Wrong.

Atchison Globe: If your proposition needs a lot of boosting and propaganda, there may be something wrong with it.

Using the Primary.

Marion Star: Another black mark against the primary! Look how Congress has utilized the last one as an excuse for not adjourning.

We Wonder.

Detroit News: Only two houses have been built in New Kensington, N. H., in the last 100 years. Goodness! Is there an Old Kensington?

Eugenics and Crime.

Cincinnati Enquirer: A Chicago judge thinks eugenics will solve the crime problem. And that is just another one of those believe-it-or-not theories.

Changing Human Nature.

Indianapolis Star: The city fathers of Berlin have voted to make marriage easier, but they can do little to ease the torment of the proposal stage.

Military Training.

Pittsburgh Chronicle-Telegraph: It is becoming more apparent that every French statesman ought to have been apprenticed in his youth to a first-class cabinet-maker.

He Ought to Know.

Louisville Courier Journal: Judge Gary says that wages are on the right level in this country. Since Judge Gary is a hired man, like the rest of us, he may be said to know something about it.

That Surplus.

Cincinnati Enquirer: There are rumors that an extra session of Congress may be called in the fall, but the probabilities are President Coolidge will take no chances with a surplus in the Treasury.

Romance in Japan.

Detroit News: A Japanese author has dashed off a romance in 706 volumes, and no doubt there are impatient persons in Japan who will read the last sixteen volumes first to see whether he marries the girl.

Impromptu Statistics.

Detroit News: Smith W. Brookhart, Republican nominee for senator from Iowa, will be readily recalled as the statesman who makes a specialty of impromptu statistics.

The Kaiser's Discretion.

Pittsburgh Gazette-Times: An etfay of the former kaiser being torn limb from limb by socialists in Berlin is further evidence to the Hohenzollerns that he possessed discretion in taking up residence in Holland.

Congressional Kindling.

Indianapolis News: Many congressmen are eager to talk on the farm relief plan, and many copies of the Congressional Record containing their eager talks will soon be on the way West to be stacked for kindling.

Divorce in Germany.

Philadelphia Inquirer: It now develops that Von Ludendorff's suit for divorce was inspired by his wife's "incessant smoking of cigarettes." He probably objected to having her throw ashes on the rugs and smoke up the curtains.

Always the Same.

Brooklyn Eagle: Charles V disgraced Cortes. Ferdinand loaded Columbus with chains. Pizarro and Balboa were both murdered by

The Tyranny of the Past

By GLENN FRANK.

HOWEVER brave and adventurous and inventive we become, the major part of our lives remains in bondage to the past.

Our newest invention is interpreted in terms of ancient experience. Yesterday I was motoring down a long highway, trying desperately to tie my mind down to a problem that was demanding an early decision, when an all too easily diverted attention was attracted to a flaming sign board at the roadside.

It was a sign that cried the wares of an electric power company. The sky of the background was etched with jagged streaks of lightning; the foreground was alive with the dashing magnificence of eight majestic horses; and across the top of the sign board ran the legend—437,876 horsepower.

I was impressed by the fact that when man discovered the new mysterious might of electricity he described it in terms of the old plodding power of the horse.

There is no obvious similarity between a kilowatt and a Kentucky mare; an ampere and an Arabian steed are quite different things; and yet when man found a subtle something in electricity that pulled heavy loads he spoke of it in terms of the strength of stamping stallions; he called it horsepower.

All of which throws an illuminating light on our mental processes. Our most daring dreams and our most inventive insights must be described in terms of our experience.

The new fact has to use the old vocabulary. And then too often we set greater store by the description of the fact than we do by the fact itself.

In the dim dawn of the race life, man set his soul adventuring among the spiritual realities and came to feel that the universe was alive and friendly to the man who played fair with it.

In short, he found God.

When he set out to describe what he had found, he described it in terms that he knew; he called God a person; in his mystic contact with his world, he had felt the warm touch of personality in the universe, and, of course, he called God a person; but he has through the ages had to fight against pulling the conception of a personal God down to the level of his own personality; he had damned and burned the occasional larger spirit who was struggling to give God an ampler description than to say He is a person like ourselves.

We must use our old experience in describing our new findings, until we can find the new word that really tells the story, we must speak of electricity in terms of horsepower. But—in science, in religion, and in government—we must be forever on guard against permitting our descriptions of things to limit the growth and gathering power of the things themselves.

(Copyright, 1926.)

royal agents. If Alfonso has ordered Ramon Franco under arrest he is following precedent. But Franco, like the greatest of Spanish educators and the greatest of Spanish authors, may stay in Paris till storms blow over. Spain remains the same through all the ages.

Weighting Atoms. Philadelphia Ledger: Safer airplanes is the objective of a fund established by Daniel Guggenheim. It means to encourage manufacturers everywhere to make aircraft that shall be so secure that the most timorous mortals need have no fear to fly. That is an ideal that will take a lot of technical experiment; but already designers are aware of the desideratum, and are doing their best to minimize the risk involved in the use of wings. Those who have flown do not need to be told what a delightful mode of rapid transit it is nor to be reminded that under usual circumstances it seems altogether safe. There need be no fear of vertigo, since there is no yardstick to the ground and there is equal freedom of space on every hand. Undoubtedly the aircraft of the future will make our present pioneer devices seem crude.

Hymn of Hate. New York Times: "America is not hated abroad," said a business man returning from the continent; "It is loathed." Writing from England, one clubman advised another to stay at home this vacation. "Your best friend here will invite you for the week-end and spend it sticking pins into you; fellow guests stop little short of insult."

Before the Philadelphia convention of the Associated Advertising Clubs, Bruce Barton proposed "a world survey seeking to analyze the underlying causes of ill-feeling toward America and to spread the facts before the American people, to the end that the causes of this distrust and resentment may be removed."

LET ME KEEP MY DREAMS.

GENE WHITTIER IN BOSTON POST.

God, let me keep my dreams! Let me never know or see The darkness that would hurt my faith In friends, the world, humanity.

God, let me always feel Proud of those things I love; Help me build ideals that reach And tower to the stars above.

God, let me keep my dreams! Keep my heart staunch and free, Living, loving, dreaming dreams; Believing, loving, serving Thee!

LETTERS TO THE EDITOR.

Warning to Gas Users.

To the Editor of the Post—Sir: Not long ago, an aged woman in our vicinity, was being asphyxiated alone in the house. With great effort she stumbled into an adjoining room for a dinner bell, with which, according to previous arrangement, she summoned a neighbor, who was the means of saving her life.

The old lady knew that she was desperately ill, but she did not suspect the cause. She had drawn a tea-kettle along a gas pipe, into burning gas; without her knowledge it had extinguished the blaze, leaving the open gas tube to fill the house with gas.

Never draw a vessel over a burning gas jet; always lift it onto it. Again, watch the thumb-valve, which controls the flow of gas in the tube; see that it is horizontal whenever the gas is not burning, or at right angles with the tube.

MRS. M. E. STEWARD.

Takoma Park, June 16.

Money in Elections.

To the Editor of the Post—Sir: The recent primary election in the Keystone State is a very excellent example of the power of money in politics. Up to date the amount expended by each candidate is reported to be: Pepper, \$1,620,000; Vane, \$600,000; Pinchot, \$123,000—the "money battle" being awarded to the "wet" Mr. Vane.

This contest is also a good example of the corruption in present-day politics. The country, as a whole, is staggering under a load of graft, vote buying, ballot box stuffing, which, if not obliterated, will soon cause the people to lose what little confidence they now have in the government.

Representative Vane spent less money in his campaign than Senator Pepper did, and a few hundred thousand dollars more than Gov. Pinchot. However, the amount expended by Mr. Vane and his associates is several hundred thousand dollars more than his salary will amount to for the entire term of six years in the United States Senate, and it would seem, therefore, that it is no longer a question of how capable and qualified a man is morally and mentally, but rather a question of how much money he has at his disposal.

The country is deluged with "soft soap artists," whose prime desire is to think with the majority and who do not express an opinion on any subject at any time. The nation is "choked" with politicians who make speeches in Congress for publicity purposes and then hire a corps of clerks to distribute them in every hamlet of their States.

These United States need a number of outspoken men—men who have the interest of the whole country at heart; men who have original thoughts, honest convictions, and are willing to express them in unmistakable language; men who know how to do and do plain, everyday English; men who do not mingle their words, who do not beat around the bush, but call a spade a spade and, what's more, stand squarely and firmly behind their convictions.

We need, when all is said and done, a few more Jeffersons and Lincolns.

H. P. F.

Washington, June 26.

Edison's Automobile.

New York Times: Mr. Edison has named his flivver after the Crown Prince of Sweden, who rode in it. Thus is the title, "Gustaf Adolf," added to that of "Lizzie," "Justina" and "Edsel." Few other makes of cars these days obtain such a distinction.

"The House with the Green Shutters"

AN ACHIEVEMENT
IN RUGS

FOR years we have encouraged American rug
makers to approach, as nearly as possible,
Oriental colors and designs. We are now be-
ing rewarded for our help in fostering this
industry. Newly arrived are some Oriental
reproductions, made in America, that are
superb in every detail.

THE delicate Tans, Nut Browns, China Blues,
Jade Greens and decorative Grays are colors
which will wear with an indifference to the
flight of time.

SARUK, Tabriz and fine all-over Kermanshah
patterns are faithfully represented in soft,
Far East colors.

We invite your critical inspection of
these American Wilton Masterpieces.

CAPITAL SOCIETY EVENTS

THE Secretary of State and Mrs. Kellogg will occupy Bonvois, the suburban estate of the Undersecretary of State and Mrs. Joseph Grew, which they have leased for the summer. They will take possession of it after July 1. Mr. and Mrs. Grew will pass the summer at Dublin, N. H.

Justice and Mrs. Oliver Wendell Holmes have opened their cottage at Beverly Farms, Mass.

Mr. and Mrs. James F. Curtis have opened Willowmere, their summer home at Roslyn, Long Island, which is the home of the late Admiral and Mrs. Aaron Ward.

Mr. and Mrs. Joseph Leiter are at Edgewater, their summer place at Beverly, Mass. Mrs. John Balentine Pitney, sister of Mrs. Leiter, will pass part of the summer with them.

Miss Jane Kendall, daughter of Mr. and Mrs. Lyman B. Kendall, went to New York to attend the wedding Saturday of Miss Antoinette Clemens, daughter of Dr. and Mrs. James B. Clemens, to Mr. Theodore Lang Bailey. She will return the early part of the week.

Mr. Joseph Davies sailed Saturday for Switzerland, where he will join Mrs. Davies and Miss Eleanor Davies. They will remain abroad until August. The marriage of Miss Davies and Mr. Thomas Faxon Chesborough will take place in October.

Mrs. King Carley and her daughter, Miss Ann Carley, will go to Newport next week for the remainder of the season.

Mrs. Frederick McCormick Goodhart will go to Bar Harbor and open her Italian villa early in July.

Visit in Atlantic City.

Mr. and Mrs. John F. Wilkins, accompanied by their daughter, Miss Katherine E. Wilkins, are at the Ritz-Carlton hotel, in Atlantic City, for the week.

Dr. and Mrs. Preston Pope Sat-

terwhite have leased the residence of Mrs. E. Hope Slater at Newport for the summer. Mrs. Slater is now in Europe, where she will remain until the autumn.

Representative and Mrs. Henry Allen Cooper, of Wisconsin, have closed their apartment in the Rochambeau, and departed yesterday for their home in Racine, Wis., where they will spend the summer.

Dr. and Mrs. C. Augustus Simpson and their little daughters, Frances and Betsy Anne, have returned from a short stay at the Ambassador hotel, Atlantic City, and have gone to their country home, Glen Aulle, in Fairfax county, Va., for the summer.

Guest in New Jersey.

Mrs. Stimson Brown, who has been passing some time with her daughter, Mrs. Paul Hendren, wife of Lieut. Paul Hendren, U. S. N., is visiting Mrs. Stephen B. Elkins at her home in Ventnor, N. J. Mrs. Brown will spend the summer in the mountains and will return to Washington in the autumn and will be with her daughter at 1926 Belmont road.

Mrs. Horace Mahar and her sister, Mrs. John Dana, who have been in New York for several weeks, have gone to Briarcliff lodge for a fortnight.

Mr. and Mrs. Russell A. Oakley, of Vernon street, returned Friday from Europe. Mr. Oakley was commissioned by Secretary Jardine as one of the United States representatives at the International Ag-

U. S. POLICY IN CHINA IS ATTACKED BY JAPANESE

Review in Shanghai Holds
Churches Name Diplomats
and Foment Trouble.

SAYS COURSE 'MUST STOP'

(Special Cable Dispatch.)
Shanghai, June 27.—A new story in the Far Eastern Review, a proponent of Japanese interests, published in Shanghai, devotes a considerable portion in the current June issue to an attack on the American policy toward China, claiming it is dominated by American missionary uplifters who are responsible solely for the turmoil in China.

The article declares that the history of the last quarter century of American far Eastern diplomacy shows that the financiers, traders and engineers have been relegated to the background, while American interests solely were devoted to philanthropic and missionary endeavor and education uplift. It says America's chief object is to Christianize the Asiatics and to open door policy is a new means of preservation of American rights in eleemosynary institutions and the preservation of China as a preferred field for religious philanthropy.

The paper states that the American churches nominate the American diplomats to China and prevent the selection of hard headed business men and financiers. It further adds that the churches maintain lobbies in Washington which the Presidents fear to antagonize and the church policy toward China rapidly is jeopardizing the material interests of Japan and Great Britain in China.

"America refuses to involve herself in European politics or the League of Nations, but is ready to fight at the drop of the hat for China as a field for implanting

American political, cultural and religious ideals," declares the article. The paper states that America must stop mixing trade and sentiment and the American government must quit officially supporting cultural and spiritual uplifts. (Copyright, 1926, by the Chicago Tribune.)

Three Dead in Tenement Fire.
New York, June 27 (By A. P.).—Three negro children were burned to death and several persons were injured early today when fire swept through a five-story brick tenement in the Bronx.

PROBLEMS OF HOLY LAND LAID BEFORE ZIONISTS

Convention Told Quota of Appeal
Should Be Put at
\$7,500,000.

WOMEN BUILD HOSPITAL

Buffalo, N. Y., June 27 (By A. P.).—Leading problems facing the Zionists in the rebuilding of Palestine were revived by Louis Lipsky, chairman of the Zionist organization of America, in his annual address today opening the twenty-ninth annual convention here. He detailed the progress made in the past year in industrial and agricultural developments of the Holy Land, and declared some problems demanded immediate action if progress in the development of the Jewish homeland were to continue.

Emanuel Neumann, national director of the united Palestine appeal, reported that the \$5,000,000 quota of the appeal, organized last October, had been exceeded, and he urged that a quota of \$7,500,000 be adopted for next year.

Mrs. Robert Sord, acting president of Hadassah, the American woman's Zionist organization, reported that Hadassah is undertaking a \$1,000,000 hospital building program, because the increased Jewish immigration has seriously curtailed its public health program in the Holy Land. Abraham Goldstein, president of the Hebrew federation, reported that the federation plans to establish a Hebrew publishing company, to issue the best Hebrew literary works of the past twenty years. More than 1,000 delegates are attending the convention, the largest in the organization's history.

WEATHER CONDITIONS.

U. S. DEPT. OF AGRICULTURE.
Washington, Sunday, June 27, 8 p. m.
Forecast.—For the District of Columbia: Partly cloudy Sunday; Tuesday increasing cloudiness, possibly showers; not much change in temperature; gentle northeast and north winds.
For Virginia: Cloudy Monday and Tuesday, probably occasional showers; moderate easterly winds.
For Maryland: Partly cloudy Monday and Tuesday; not much change in temperature; moderate northeast winds.
The disturbance that was over the Saint Lawrence valley Saturday night has advanced to the Gulf of Saint Lawrence. Port au Prince, 22.78 inches, with a trough extending southwestward to southern New England, and pressure continues relatively low in the Gulf States and along the south Atlantic coast. The northwestern disturbance is advancing eastward, being central over Manitoba, Le Pas, 30.26 inches. An area of high pressure covers the Ohio valley and the Lake region, Columbus, 30.10 inches, whence it will move slowly eastward. Pressure is also high over the north Pacific coast, Portland, 30.10, and in the region of and northeast of Bermuda, 30.24 inches. During the last 24 hours, showers and thunderstorms have occurred in the Atlantic and east Gulf States. Temperatures have fallen in the South Atlantic States, over the northern plateau, Saskatchewan and Alberta, and have risen to 20 degrees above normal over the Mississippi valley. Temperatures are from 10 to 20 degrees above normal over the middle and northern Rocky mountain region and the northern prairie States, a local maximum of 104 degrees being reported at Miles City.

Local Weather Report.
Temperature—Midnight, 67; 2 a. m., 64; 4 a. m., 62; 6 a. m., 63; 8 a. m., 68; 10 a. m., 69; 12 noon, 72; 2 p. m., 74; 4 p. m., 72; 6 p. m., 72; 8 p. m., 68; 10 p. m., 64. Maximum, 74; minimum, 61. Temperature same date, last year, 80 minimum, 64. Relative humidity—8 a. m., 66; 2 p. m., 51; 8 p. m., 65. Rainfall, 0 p. m. to 8 p. m., 0.04 inch. Hours of sunshine, 8.4. Per cent of possible sunshine, 57.

DEPARTURES FROM NORMAL.
Accumulated deficiency of temperature since January 1, 1926, 130 degrees.
Deficiency of temperature since June 1, 1926, 81 degrees.
Accumulated deficiency of precipitation since January 1, 1926, 7.93.
Deficiency of precipitation since June 1, 1926, 1.04 inches.

The Journey of a Bank Check

I AM A BANK CHECK. I have just returned home—to the office of my maker—after a long trip. Almost a month ago my boss wrote me out and put me inside of an envelope. Imagine my surprise, when the envelope was opened, to find myself in a small California town! But I didn't stay there long. That very day the man took me to a local bank, where I was pleasantly received through a grated window.

Well, I traveled about for several days. I hit Los Angeles, San Francisco and another big town whose name I don't know. I was entertained for a day in a bank in each city.

But the last day was the most exciting. I arrived at my home bank—that is, the one in which my boss keeps his money—early in the morning, along with many other checks that came through the Washington Clearing House.

First we were listed on the adding machine to see whether we were all there. Then we were sorted according to the alphabetical divisions of the ledgers and listed again on the adding machine. It seemed they never got tired of running us on the adding machine.

A little later a man came along and picked us up. I found he was the bookkeeper. Well, he sorted us again into perfect alphabetical order according to our makers' names. Then we were sent down to a man they call a teller, so he could look over all our makers' signatures, see whether we had been altered, whether we were dated in advance and whether we were properly endorsed. I understand that if a bank pays a check which has been forged, altered or post-dated, it is liable for the loss. So I don't blame the teller for being so careful.

Oh, yes! and the drawers of several checks didn't have enough money to pay them. The bookkeeper took them to an officer, who went to all kinds of trouble to see whether they could properly be paid. At that, several of them were sent back. It must have been embarrassing and expensive to the makers, because somebody had to pay a protest fee of over \$2.

All the good checks—that included me—were then posted one at a time on the ledger; that is, the bookkeeper deducted us from our respective makers' deposit balance and brought down a new balance for the day. Incidentally, I found, a bank ledger shows the customer's balance every hour of every day.

The next thing was a surgical operation. We were put in a big punching machine and holes were driven through us. It was terrible! They said they canceled us. I'll say, they ruined us.

Our perforated remains were then filed in a big steel case with other checks of our respective bosses. At the end of the month the bookkeeper brought around what he called "statements"—complete copies of the ledger for the month—and we were counted, checked against the entries on the statement and folded up in it. Most of them were then mailed to their bosses and the rest were put in a big file to be called for.

I am glad to be back home. I had a big trip. All I hope is that my boss keeps a good balance at the bank to pay them for all the trouble they took to entertain me.

This is one of a series of advertisements explaining the mutuality of interest of banks and depositors, indicating the extent and cost of the service and its value to the customer.

BUSINESS ACTIVITY STAYS AT HIGHER RATE THAN IN 1925

Crop Prospects Are Likely to
Regulate Trend From
Now to the Fall.

STEEL AND RAILWAY REPORTS FAVORABLE

Concern Felt Over Motor
Industry and in the Tex-
tile Situation.

New York, June 27 (By the Associated Press).—Current business developments have indicated that trade and industrial activities have been maintained at a relatively high rate for the early summer season and are now moving well above those of the same period last year. With the approach of the second half of the year, however, a marked division of opinion exists as to how far this improvement will extend. Most of the business forecasts since the first of the year have insisted that operations would reach their peak in the first six months and that only under unusually favorable circumstances could the late summer and autumn revival of 1925 be duplicated. Midsummer developments will be watched with interest, with the chance that crop prospects from now on will largely regulate and determine the business trend.

Steel Buying Steady.
Steady buying of railroad, structural and other steel products has given unexpected vitality to the steel industry. Trade reviews reported that growing confidence was based on the firmness of prices, the increase in June business over that of May and the greater stability of operations. Production has been well pegged around 80 per cent, compared with 65 per cent at this time last year, although moderate curtailment is expected next month. More concern was manifested over conditions in the automobile industry, due to reports of severe competition and additional price-cutting in the low priced field. Business also is expected to lag until the approaching period of inventory taking and equipment changes incident to the introduction of new models is completed. After that time, general business conditions are expected to shape the volume of new buying.

Railway Reports Good.
Reports from the railroads were uniformly favorable. In the week ended June 12, car loadings for the fourth time this year crossed the 1,000,000 mark. May earnings promise to exceed those of the same month last year, most of the leading carriers in their statements made public last week showing substantial gains. Meanwhile, new traffic agreements and leases indicated the possibility of constructive merger developments. Increasing importance will be attached to all developments affecting the country's crops over the next few weeks. So far, conditions on the whole have been satisfactory, but a stretch of favorable weather is needed in the corn belt

and the Northwestern small grain territory, where drought spots have been reported. One of the unsatisfactory elements in the general business situation has been the continued hesitation in the textile industry, for which no remedy has yet been found. Further curtailment of production was announced last week and stocks of dry goods, limited to seasonal requirements, were unloaded at substantial price concessions.

WALL STREET GOSSIP
New York, June 27 (By A. P.).—Wall street no longer is said to gauge the general trend of business fluctuations exclusively by operations of the United States Steel Corporation, although steel's monthly unfilled tonnage report still has weight. In studying business conditions the mathematical table now extends to car loadings, gross business of mail order and chain store houses, bank clearings and crop reports. The great diversification of industry in recent years is said to have caused the change.

Inauguration of trading in grain futures on the New York Produce Exchange, which was scheduled for July 1, has been extended until later in the month, until details have been completed in order to obtain formal consent from the Federal government, which has given tentative approval.

Peoples Drug Stores, Inc., has acquired a store in Martinsburg, W. Va., the thirty-third in its chain and the fifteenth added since January 1. Rumors of pending stock splits have become more prolific than ever in the financial district, among the companies mentioned in addition to United States Steel, General Motors and Du Pont, being American Smelting & Refining, Coca-Cola, Allied Chemical, National Lead, United Drug and Pullman. The high prices at which these stocks have been selling have given impetus to gossip.

World rubber shipments in the first four months this year aggregated 180,115 tons of plantation rubber and 13,659 tons of wild and Brazilian rubber, the largest part of the plantation rubber, 75,723 tons having been shipped from British Malaya, says the Bankers Trust Co., of New York. Shipments of plantation rubber in 1926 show an increase of 40,320 tons over the same period last year. It is estimated 657,000 tons will be shipped from various plantations, Brazil and Africa in 1926, of which the United States is expected to require 420,000 tons.

JUNE EXPECTED TO SET NEW FINANCING RECORD

Flotations for the Month Already Is Well Above Total of \$400,000,000.

RAIL ISSUES HAVE GAINS

New York, June 27 (By the Associated Press).—Another large volume of new financing, aggregating \$150,000,000, last week attracted investment funds away from the bond market, retarding the movement of prices. Trading, however, was marked by several interesting features, although buying operations were confined to a select list of securities in which speculative possibilities were apparent. Indications are that June will run a close race with January for the monthly record of new bond offerings. So far the month's flotations have mounted well above \$400,000,000 and if several operations now on schedule are completed early next week, the total will surpass the January figures of \$470,000,000.

Concrete evidence of Germany's financial recovery was supplied last week by the announcement that German banks would share equally with American interests in the \$60,000,000 financing of the United Steel Works Corporation, representing a merger of four large Rhenish steel companies. Not since the war had an operation of such magnitude been attempted in Germany. The \$30,000,000 bond issue offered in the American market brought this country's participation in the deal up to \$60,000,000, as smaller loans previously were arranged.

Another interesting foreign transaction was the sale of a \$25,000,000 Brazilian bond issue, supplementing a \$35,000,000 loan floated here last month. The second portion originally had been allotted to London bankers, but its placement in the European markets was prevented by Brazil's withdrawal from the League of Nations council. Although both issues of bonds were identical, the bankers were able to place the second block at a higher price as a result of recent improvement in market conditions and the good distribution of the first loan.

Renewed activity in some of the semispeculative rails was based on favorable merger, earnings and traffic developments. Consolida-

tion plans undoubtedly were the most potent influence, since the bonds of companies involved in pending mergers recorded the best gains. Merger negotiations also accounted for heavy accumulation of Skelly Oil 6½ per cent bonds, which were run up about 10 points to a record high price.

\$30,000,000

United Steel Works Corporation

(VEREINIGTE STAHLWERKE AKTIENGESELLSCHAFT)

25-Year 6½% Sinking Fund Mortgage Gold Bonds, Series A

With Non-detachable Stock Purchase Warrants

To be dated June 1, 1926

Due June 1, 1951

Interest payable June 1 and December 1. Principal and interest payable in New York at the office of Dillon, Read & Co., in United States gold coin of the present standard. Bondholders may, at their option, collect principal and interest in London at the office of J. Henry Schroder & Co. in Pounds Sterling at the buying rate for sight exchange on New York on the date of presentation for collection. Coupon bonds in denomination of \$1,000, registerable as to principal only. Callable as a whole, or in part by lot, on any interest date, after thirty days' notice, at the following prices and accrued interest: to and including June 1, 1931, at 105; thereafter to and including June 1, 1936, at 103; thereafter to and including June 1, 1941, at 101; thereafter prior to maturity at 100. The National City Bank of New York, American Trustee, Darmstädter und Nationalbank Kommanditgesellschaft auf Aktien, German Trustee.

Principal and interest payable, to others than citizens and residents of Germany, without deduction for any taxes, past, present or future, levied by German Governmental authorities.

The corporation agrees to provide a sinking fund sufficient to retire the entire issue of Series A bonds by maturity, by semi-annual call by lot (first redemption December 1, 1926), at 100 and interest, at the annual rate of \$600,000 to and including December 1, 1938, and of \$1,800,000 thereafter to maturity.

From their letter to us, Carl Rabes, Esq., and Dr. Orkar Sempell, Managing Directors of United Steel Works Corporation, summarize as follows:

THE COMPANY
United Steel Works Corporation, which has contracted to acquire the principal fixed assets (except certain coal properties), the good-will and businesses of four leading coal, iron and steel concerns in Germany, viz., Rheinische Union, Thyssen, Phoenix and Rheinstahl, will be the largest industrial unit in Europe and one of the largest manufacturers of iron and steel in the world, ranking in productive capacity second only to United States Steel Corporation. Its coal properties will be among the largest in the world, with respect to reserves and present productive capacity. United Steel Works Corporation has operated these properties since May 7, 1926, and is at present producing approximately 40% of the entire German steel production and employs about 164,000 persons.

SECURITY
These Series A bonds, limited to \$30,000,000, will be the direct obligation of the corporation, secured, in the opinion of counsel, by mortgage on fixed assets valued by Mr. H. A. Brassert, American consulting engineer, at \$537,671,800 (including real estate and coal reserves), subject to about \$70,600,000 of underlying obligations, including approximately \$29,400,000 obligations under the Dawes Plan based on existing assessments. Against the properties presently to be mortgaged there may be issued (ranking equally with Series A bonds) a total of \$105,000,000 of bonds, including the \$30,000,000 Series A bonds, the equivalent of about \$30,000,000 of bonds proposed to be presently issued abroad, payable in foreign currency, and \$41,180,000 of bonds reserved to refund underlying obligations. The valuation of \$537,671,800 equals about 4 times the sum of all underlying obligations (including existing obligations under the Dawes Plan), these \$30,000,000 Series A bonds and all other bonds ranking equally therewith (except bonds reserved to refund underlying obligations) issuable against the properties presently to be mortgaged.

The pro forma opening balance sheet of United Steel Works Corporation, as of April 1, 1926, as certified by Messrs. Price, Waterhouse & Co., adjusted to give effect to the issue and sale of the \$30,000,000 Series A bonds and application of proceeds, shows current assets of \$86,799,087, including over \$22,000,000 of cash, and current liabilities of \$16,629,504,—a current ratio of more than five to one.

ESTIMATED EARNINGS

As United Steel Works Corporation is not acquiring all the properties of each of the vendor companies and as the operation of the properties is being completely reorganized and unified, past earnings of the vendor companies while separately operated are not fairly indicative of the present earning power of the corporation. Mr. Brassert estimates that under the changed basis of operation net earnings of United Steel Works Corporation after depreciation, depletion and all other charges except interest, payments under the Dawes Plan and profits taxes, for the five years 1927 to 1931 inclusive, will average \$28,311,358 per annum, or more than 3 times the sum of the annual interest charges on these \$30,000,000 Series A bonds, on the bonds (about \$30,000,000) proposed to be presently issued abroad, on existing underlying liens and estimated maximum annual payments under the Dawes Plan. This estimate makes no allowance for benefits expected to accrue to the German iron and steel industry upon stabilization of French and Belgian currencies, which Mr. Brassert believes will increase estimated earnings approximately 20%.

INDENTURE PROVISIONS

Bonds in addition to the above \$105,000,000 principal amount and ranking equally therewith, may be issued in series up to 2% of cost or fair value, whichever is less, of additional fixed assets to be mortgaged, subject to indenture restrictions as to earnings and otherwise; bonds of the several series may differ as to maturity dates, interest rates, redemption, sinking fund, provisions for payment of principal and interest in different currencies and in such other respects as may be provided in the indenture; certain provisions of the indenture may be changed on vote of 85% of bonds then outstanding; all as may be more fully stated and defined in the indenture.

PURPOSE OF ISSUE

The proceeds from the sale of Series A bonds will be used for the completion of construction in process, for additional working capital and other corporate purposes.

STOCK PURCHASE WARRANTS

Each Series A bond will carry a non-detachable warrant, entitling the holder, on or before July 1, 1929, to purchase one share (par value 1,000 Reichsmarks) of common stock of United Steel Works Corporation for \$297.50, viz., 125% of par. Detached warrants will be issued in exchange for unexercised warrants attached to Series A bonds redeemed on or before June 1, 1929. It is expected that the common stock will shortly be listed on the Berlin Stock Exchange.

These Series A bonds with warrants are listed on the Boston Stock Exchange and the corporation has agreed to make application to list them on the New York Stock Exchange.

Conversions of German into United States currency at par of exchange (one Reichsmark equals 23.8 cents).

The statements quoted above, based in part upon cable and radio communication, have been accepted by us as accurate but are in no event to be construed as representations by us.

We offer these bonds for delivery if, when and as issued and accepted by us, subject to the approval of legal matters by our counsel. It is expected that delivery will be made on or about July 8, 1926, in the form of temporary bonds of the corporation or interim receipts of Dillon, Read & Co.

Price 96 and Interest. To Yield over 6.80%

The above is subject to a circular, containing further information, which may be obtained upon request.

Foreign Money Is Keeping U. S. Stock Market Busy

By S. S. FONTAINE.

New York, June 27.—Wall street's rank and file are wondering how in these days, when the summer solstice usually lulls business into its seasonal siesta, and stocks normally drop into a state of lassitude, the market is showing surpassing vitality. But the fact is that this is an abnormal season in more ways than one. Business, instead of going to sleep, is waking up, and there is a tremendous buying power behind the market.

"But the public doesn't seem to be in the market," you naturally suggest.

"However, the bankers are."

"But you answer."

"They buy only for distribution."

"Not always," comes the answer.

"This time they are not—they are buying for European investors."

And that truly is the backbone of the present market. European wealth is getting more and more pessimistic as to the industrial, social and political future of its respective countries. The greatest confidence and hesitation, of course, exists in Great Britain, conscious that honesty is not only the best policy, but that it is the best asset and the best asset to ward off evil days, and yet it is said that the greatest purchasers of steel recently were the British investors, who in tended keeping their money where it may have immunity from any socialistic measures that may perchance be directed at the so-called capitalistic class. Germany has bought a substantial amount of her favorite rails, but the great flight of capital has been from France away from the mad fiscal policy that is prostrating the franc to a point where many fear a repetition of the wild folly and crime of the mark inflation or a segregation of wealth catallin in character. And so European politics is a source of strength to the New York stock market.

But you naturally ask:

"How about our own politics?"

"Ah, that is a question; this, it is true, is a so-called off year. Yet the intersection of prohibition and the apparent resentment growing in some quarters over a segregation of political leadership in power, have made the coming elections pregnant with possibilities. But whether they may be a source of business restraint remains to be seen."

At any rate the writer has asked Walter J. Fahy, partner in the stock exchange house of Lyman D. Smith & Co., former Washington correspondent and a political forecaster, much trusted in Wall street to make an analysis of outlook in national politics, and his direct is presented to the reader as his own view and not that of this newspaper.

Mr. Fahy writes:

"The results of such senatorial primaries as have been held thus far have overruled a rather widespread impression that the nation may be in the midst of a political upheaval, which, if unchecked, might be harmful to prosperity."

"An analysis of political conditions as they exist today, and as they may exist on November 3, indicates some interesting possibilities but refutes a generally accepted theory that a change or modification of the present political complexion of the United States Senate would be a disturbing factor in the business world."

"On November 2, 34 members of the United States Senate will be elected. Of the 34 seats to be contested, 27 are now held by Republicans and seven by Democrats. The result of the senatorial election will determine which party will organize the Senate on March 4, 1927, and in all probability it will determine also the legislative program between the date and March 4, 1929."

The personnel of the Senate today is as follows:

Nominate Republicans . . . 56

Democrats . . . 40

Farmer-Labor . . . 1

Total . . . 96

"To get control of the Senate as a party, the Democrats must gain nine of the 27 seats now held by Republicans in the November elections. The Republicans have no chance whatever of gaining one of the seven Democrats' seats. The Democrats have an excellent chance of capturing some of the seats now occupied by Republicans."

"The Republicans will enter the campaign with only 15 sure seats, of the 27 now held by them—a number which would place them in the minority."

"If the Democrats capture nine out of the 12 seats classified as close or doubtful, they would have control of the Senate in their own right. It must be remembered, however, that the 5 votes in the Senate nominally designated as Republican are not votes which can be counted upon either for the purpose of organizing that body or for legislative purposes. There are no less than nine members sitting on the Republican side of the Senate who normally vote without regard to party program. From a legislative standpoint, therefore, the Republicans must win every one of their contests, and this is almost a political impossibility."

"They could lose six seats next November and still retain an apparent majority of one vote. This majority, however, could depend entirely on the nine votes which are variously classified as independent, progressive or radical. It will be seen, therefore, that the loss of seven seats will cost the Republicans an apparent as well as an actual loss of the Senate."

"The Republicans admitted will have a different task to retain control of the Senate, and curiously enough, the difficulty is caused by their success at the polls. The seats to be contested for in November are with one exception, the ones which were part and parcel of the presidential campaign in 1920. The tremendous vote by which President Harding carried the country in that year carried into the Senate a number of Republicans from States which are normally Democratic or which, at best, are debatable political ground. There being no presidential contest this year, personalities and local conditions are likely

to prevail and candidates will not have the momentum of a national ticket to help them along.

"If the protest vote, which is a normal characteristic of an off year in politics, plus local conditions, should give the Democrats control of the Senate, it is generally probable that there would exist in Washington a state of affairs which would not be harmful to the country in general or to industry in particular. The political classification of the House of Representatives follows:

"Republicans, 247; Democrats, 183; Independent, 1; Farm Labor, 2; Socialist, 2. Total 435."

"It is not likely that a Republican majority of 59 in the House will be turned into a minority. The Democrats undoubtedly will gain votes, as the minority party is accustomed to do in an off year, but Republican control seems assured. Assuming, therefore, that the Republicans retain control of the House and that the Democrats capture control of the Senate the inevitable result will be a legislative stalemate. In such a contingency it is safe to predict the country will be free from legislation designed to change the economic laws of nature and of the world, the Treasury will be safe from a multiplicity of raids, and business will be able to go on its normal course, if as possible, the Democrats gain control of the Senate because 1925 is an off year. It is equally possible, and, in fact, entirely probable that the control will be limited to two years."

"In 1928, a presidential year, there will be almost the reverse of the senatorial situation which will exist this fall. Then there will be 20 Democrats, 11 Republicans and one Farmer-Labor up for election. This class of senators is no longer in 1928—an off year, just as 1926; in other words, they were elected in a protest year. But 1928 being a presidential year, Republican candidates will have the benefit of tacking their campaigns on to a national ticket."

"Even if the Democrats gain all of the seats in doubtful States in 1926, their control of the Senate will be a doubtful one. The Republicans in 1928 will be in a stronger position to recapture control of the Senate than they will be in 1926 to retain it."

"Business has a tendency to worry unduly about politics. The political situation in the Senate during the next two years, however, need give business no serious concern. Even a full measure of Democratic success this fall will give that party control of the Senate by one or two votes. If the Republicans have troubles in their own family by reason of radical votes, the Democrats are not free from troubles of the same sort. There are now and will continue to be conservative votes on the Democratic side which will be cast against radicalism of any kind. The outcome of the senatorial elections, therefore, will give the country one of two situations:

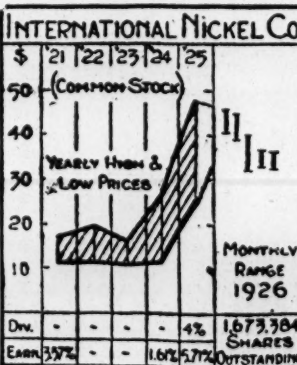

"1. A political line up no worse than that now existing."

"2. A legislative moratorium (in the event of Democratic control) because of a deadlock between the two houses."

"Business it would seem has nothing political to worry about in 1928."

(Copyright, 1926.)

What's Behind Your Stock

International Nickel Co.

The International Nickel Co. is one of the very few corporations in existence which can boast of having practically a world monopoly in its field. The company was organized in 1889 for the purpose of producing refined nickel, and dividends were paid from 1909 until a reorganization in 1912. There was a lapse in dividend payments from 1912 until 1925, when common stock payments were resumed on a \$2 annual basis, this rate having been maintained since. On the preferred stock, however, there have been dividends in every year since the original organization.

During the ten years ended in 1924, the International Nickel Co. earned, on the average, 10.55 per cent on the common stock. Profits during the war were quite heavy, but fell off sharply in the immediate postwar years because of a drastic devaluation of markets. The last several years, however, have witnessed a steady improvement, 1925 earnings per share being \$2.79, as compared with \$1.43 in 1924 and only 40 cents in 1923. The present financial condition of the company is good, since there is a working capital of slightly over \$15,000,000. There are no bank loans and the company has no bonded or mortgage debt. Furthermore, the preferred stock issue is not large.

Bishop Jett Heads Trustees.

Lynchburg, Va., June 27.—Bishop Robert C. Jett, of the diocese of southwestern Virginia, was elected president and Bishop B. D. Tucker, of the southern diocese of Virginia, vice president, at the annual meeting of the trustees of the Home for Homeless Boys, held at the home near Covington, Friday, G. A. H. rooms, of Covington, was elected to fill a vacancy on the board.

CAPITAL BOOSTERS HOME AFTER FROLIC IN VIRGINIA TOWNS

Local Merchants and Manufacturers Have Gala Day of Sport at Yorktown.

PLANE CARRIES POST TO PARTY ON CRUISE

Charles J. Columbus, Retiring Secretary of Association, Receives Compliments.

(By Staff Correspondent.)
Aboard the steamer Southland, June 27.—A day of outdoor sports at Yorktown, Va., followed by an entertainment aboard the steamer in the evening, while en route to the Potomac and Washington to-night, is bringing to a close the twelfth annual boosters' outing of the Merchants and Manufacturers association.

The 227 business men aboard are preparing to return tomorrow to their daily duties, imbued with a deeper feeling of fellowship among themselves and between them and residents of the towns along which they have passed.

Busy Day at Yorktown.

The day at Yorktown was a busy one. The steamer had stopped earlier in the morning at Old Point Comfort, giving the men an opportunity to attend church services. The men were ready to go ashore the minute the gangplank was placed in position on the wharf at Yorktown. Armed with golf clubs, fishing tackle and bathing suits they swarmed over the historic grounds, pursuing their favorite sports.

The golfers betook themselves to the Yorktown Country club, where they played on the course that lies over the ground where their forefathers, with the aid of the French, so valiantly overcame the British army under Cornwallis. For sandboxes and water buckets the men used the very shells fired in the battle. The bunkers are the actual embankment thrown up by the soldiers.

Copies of The Washington Post reached the steamer this morning by airplane, and were ready for the boosters when they came down for breakfast.

Entertained on Boat.

Leaving Yorktown at 6 o'clock the party had dinner, and then went to the grand salon, where R. F. Andrews presided over the entertainment. There were solos by Thomas A. Cantwell, J. F. Dunn, Sydney Selinger, Eugene Young and John S. Black, while Paul Donaldson's Booster orchestra made the boat ring with its strains.

Franklin D. Killan and Louis Levy enacted a skit, "Mutt and Jeff." Many encores were sung to the "Spider" song by the Boosters' octet, composed of William H. Clark, Frank M. Pierson, Dr. J. T. Ready, Herman Richards, William Hettinger, Harry Ward, Thomas W. Smith and William W. Curtis.

Engineer Commissioner Bell, who formerly taught history at West Point, gave an address in which he described the historic significance of the territory through which the boosters have passed. Assistant Engineer Commissioner Covell lauded the spirit of the boosters.

Mr. Andrews gave a brief outline of the history of the boosters' outing, explaining that the aim is not only to create good will between the merchants of Washington and the Maryland and Virginia people, but also to get the business men better acquainted with each other, and with the District officials who always go on the trips. Representative Zihlman told how he appreciated the opportunity to attend the business men on the trip.

Compliment Secretary.

Many compliments were heaped upon Charles J. Columbus, retiring secretary of the organization, who has accepted a position in New York, and will no longer be with the Merchants and Manufacturers association. His successor soon will be selected. He has been with the organization thirteen years.

Boy on Bicycle Hurt by Auto.

Harry Chechin, 13 years old, 52 H street northeast, was slightly cut on the head yesterday when he was knocked from the bicycle he was riding at New Jersey avenue and H street northwest, by an automobile operated by Benjamin Ross, 29 years old, of Baltimore. The boy was treated at Casualty hospital.

TODAY'S HAPPENINGS

Concert—"The Hill Billies," Columbia Heights Christian church, 1455 Park road, 7:45 o'clock.

Play—Takoma Park Baseball club, Presbyterian Community hall, Maple and Tulip avenues, Takoma Park, 8 o'clock.

Concert—U. S. Marine band, Marine barracks, 4:30 o'clock.

Concert—U. S. Army band, Twenty-sixth and Irving streets northeast, 7:30 o'clock.

Dinner—Coal Merchants Board of Trade, the Lee House, 6 o'clock.

INDEPENDENCE WEEK EXERCISES TO BEGIN THROUGHOUT NATION

Fourth of July Celebration Will Open Officially This Morning.

IS ADVANCED A WEEK BY ACT OF CONGRESS

Ceremonies at D. A. R. Hall, Ringing of Liberty Bell and Singing Planned.

The Fourth of July celebration of greatest moment in 50 years will open officially in Washington this morning, almost a week in advance, in accordance with provision of Congress setting aside a week in which to properly commemorate the 150th anniversary of the birth of this country in the Declaration of Independence, and the 100th anniversary of the death of Thomas Jefferson, its author.

The celebration in Washington will begin at 10:30 o'clock this morning with exercises in Memorial Continental hall under auspices of the Daughters of the American Revolution.

Uniform Program Arranged.

Ceremonies today will be in observance of "Patriot's Pledge of Faith day," designated by the national commission headed by President Coolidge, which was established by act of Congress in order that the celebration might be conducted in unison throughout the nation.

Exercises are open to the public. Among those in attendance will be cabinet members, other prominent officials, and senators and representatives.

The ringing of the Liberty Bell exactly at 11:11 o'clock this morning by Mayor Kendrick in Philadelphia, however, will inaugurate the week of devotion to the ideals of the American republic throughout the land. The tones of the ancient bell that first heralded the message of independence will be transmitted by radio to every village and hamlet of the nation from coast to coast and from the Great Lakes to the Mississippi delta marshes.

National Anthem to Be Sung.

The program has been so arranged that the strains of "The Star-Spangled Banner" at the exercises this morning will be dying away just when the tones of the Liberty Bell begin to peal.

The celebration will be heralded into existence by bells, for every church, schoolhouse, firehouse, hotel, and the like, that has a bell to ring is requested by the commission to join in the bell inauguration. The ringing of the bells this morning therefore will be in a large measure comparable to the announcement of the armistice at the same hour. Notable in this ceremony will be the ringing of the chimes in Epiphany church and of the Metropolitan M. E. church.

Exercises to Be Broadcast.

Exercises this morning will be broadcast over WCAP. James M. Beck, former solicitor general, will make the principal address. The Marine band will open the program with selections. The colors in the flag ceremony will be presented by a detail of army sergeants. Mrs. Herbert M. Lord will lead the salute to the flag. Scripture reading and prayer will be led by Mrs. Rhett Goode, past chaplain general of the D. A. R.

William Tyler Page, author of "The American's Creed," will lead the recitation of the creed by the audience. The wide audience that will listen to the service over the radio is requested by Mrs. Alfred J. Brosseau, president general of the D. A. R., who will preside, to join in the recitation of "The Patriot's Pledge of Faith" and in the singing of "America." The national anthem will be sung by Mrs. Flora McGill Keefer, the close of which has been timed with the ringing of the Liberty Bell.

Big Celebration July 5.

The celebration will be continued throughout the week, the big celebration coming next Monday, July 5, when a pageant entitled "The Story of America," will be presented at 7:30 o'clock on the steps of the Capitol under auspices of the Community Center department of the public schools and under direction of the local sesquicentennial committee. A magnificent fireworks display will then follow on the Monument grounds.

At 4:30 o'clock tomorrow chairmen of the pageant groups will meet in Franklin school. The meeting will be conducted by Miss Boss Davis Schreiber, personnel chairman. Each day of the week has been designated. Tomorrow has been set aside as "Universal Education day," in honor of the American system of free education.

Maj. Grant Custodian Of Lincoln Relics

Maj. U. S. Grant 3d, director of public buildings and public parks of the National Capital, has become temporary custodian of the Oldroyd collection of Lincoln relics, pending a report of Federal museum officials relative to an estimate of the cost of putting the collection in condition and regarding its permanent custody.

Recommendation that \$50,000, authorized by Congress, be paid for the collection is made in the report of a committee composed of Secretary of State Kellogg, Secretary of War Davis and Attorney General Sargeant. The committee recommended that the collection, now located on Tenth street, across from the site of Ford's theater, on the house where President Lincoln died, be placed temporarily in custody of the public buildings and public parks office.

HIGH SCHOOL CADETS COMMENCE SUMMER CAMP WORK TODAY

100 Registered at Congress Heights Site; Sunday Lecture Is Given.

STUDENTS DIVIDED INTO TWO PLATOONS

Will Alternate in Rifle Practice and Drill Tactics; Swimming Taught.

The annual summer encampment of the Washington High school cadet corps will officially open at Camp Simms, Congress Heights, with reveille at 6 o'clock this morning. Approximately 100 cadets have registered for the training course which ends July 17. Col. Wallace M. Craigie, head military instructor of the cadet corps, is camp commandant.

The student-soldiers reported at camp Saturday and about half of the number were given passes to return home yesterday. Those who remained passed Sunday in becoming acquainted with their fellow students. Col. Craigie gave the first of a series of evening lectures last night, speaking on the privileges and responsibilities of citizenship. All students on leave yesterday had reported back at camp last night before taps at 10 o'clock.

Breakfast will be served at 6:40 o'clock this morning and military training will begin at 7:15 o'clock.

Divided Into Two Platoons.

The students will be divided into two platoons, one going down to the rifle range for target practice, while the other does close-order drill, voice practice, map reading and war games. The two groups will alternate in their work each day, one platoon doing rifle practice while the other engages in drill tactics.

The afternoons will be left free for recreation and swimming. Cadet instructors will teach swimming to all who can not swim. Col. Craigie will be assisted in teaching military tactics by six cadet officers who were graduated from school this year. A. W. V. Vain, captain of company F, of Central High school, which won the annual competitive drill, will be one of the instructors.

Dinner will be served at 6 o'clock each day and retreat formation will be at 7 o'clock with the lowering of the flag and the playing of "The Star-Spangled Banner" by the twenty-piece Cadet band, which also is receiving instruction at the camp. Sgt. Frederick Hesse, U. S. A., will be in charge of band instruction.

Guard Mounting After Dinner.

After dinner the cadets will receive instruction in guard mounting, a detail being assigned to walk a post each night. The call to quarters will be at 9:45 o'clock and taps at 10 o'clock.

Instruction in personal hygiene and first aid will be given daily at the camp by Dr. Paul Taylor, camp physician. Col. Craigie and his aids will give lectures on officers' deportment, military courtesy and allied subjects each night.

Camp officers are: Maj. Raymond G. Payne, adjutant; Maj. John G. Donovan, executive officer; Capt. David B. Van Pelt, supply officer; Sgt. Carl Trometre, in charge of ordnance; J. W. Crockett, instructor of rifle practice and J. R. Gibson is in charge of the chefs.

Ballon to Visit Camp.

Frank W. Ballou, superintendent of schools, and Stephen E. Kramer, assistant superintendent, will inspect the camp this week and take luncheon with the officers and students. Maj. Gen. Anton Stephan, commander of the District National Guard, and Col. Lloyd M. Brett, adjutant general of the District National Guard, through whose courtesy the camp was loaned to the cadets for the training period, are also expected to make an inspection of the camp this week. The barracks in which the students sleep, the bedding and other equipment was loaned for the use of the cadets by the District National Guard, to whom the camp belongs.

Visitors are welcome at the camp every afternoon and evening.

Anacostia Citizens Plan Entertainment

A varied program of entertainment will mark the meeting of the Anacostia Citizens association at 8 o'clock tonight in the Anacostia Masonic temple, Fourteenth and U streets southeast.

Miss Frances Pinotti will give a monologue. There will be songs by Miss Margaret Quaid, Miss Katherine Loughrey and Thomas Buckley and Jerry Neilligan and Miss Dorothy Carroll, all accompanied by Miss Fannie Wenger. Francis Hayes and Robert Udd will give a dialogue. The "Anacostia Charleston" will be interpreted by Francis Hayes. There will be a number of addresses. Dr. George C. Havenner, president, will preside.

3 Reserve Officers Make Camp Records

Three reserve officers of advanced age who have just completed two weeks' training at Quantico, Va., are said to have surprised regular marine officers with their records for the strenuous course.

Capt. John H. Layne, 45 years old, of 3709 Brandywine street northwest, and Capt. Charles A. Ketchan, 51 years old, of Hyattsville, Md., were among those who were praised. Capt. Philip De Ronda, 45 years old, of New York city, was also commended.

None of the three men has had military training since the war. This is the first time the marines have called on the reserves for active training in peace time.

NAVY RESERVE HERE IS LAUDED IN REPORT BY CAPT. PITT SCOTT.

Secretary Wilbur Informed Aviation Development Is Unsatisfactory, However.

AWAKENED INTEREST IN SERVICE IS NOTED

Washington and Baltimore Officers to Embark Saturday for Training Cruise.

Commendation of naval reserve of the District is expressed in a report to Secretary Wilbur by Capt. Pitt Scott, senior member of the navy board, which has just completed an inspection of one-third of the country's naval reserve.

Reserve aviation development, however, has been unsatisfactory, not only so far as the District is concerned, but elsewhere. No division has been completely organized and lack of suitable armories has been a heavy handicap, the report made public yesterday, said.

Satisfactory progress toward development of an efficient organization and an awakened interest in the reserve has been found elsewhere in the District, the report added.

"Deadwood" reservists, a term used to describe those who enter the reserve simply to take advantage of the annual summer cruise, have actually been eliminated as a factor in the District reserve corps, Capt. Scott reported.

District reserve officers of Washington and Baltimore will embark Saturday on the destroyer Allen for a training cruise of two weeks. Two other cruises will begin July 24 and August 14. Completed plans for the cruise, it is said, are expected to make it one of the most successful in the history of the reserve corps.

New York, Connecticut, New Jersey and Pennsylvania reserve corps were also commended in Capt. Scott's report. The board in the last two months inspected 45 fleet reserve divisions, 12 battalion headquarters divisions, and two aviation squadrons.

With regard to personnel, the report stated:

"From the number of new men in many of the organizations, in some cases approximately 75 percent of the total, it would appear that prior to the reorganization the reserve in many places was but a skeleton organization, the permanent part being composed for the most part of officers and petty officers and vacancies in complement being filled with new men as a rule just prior to the cruising season. Many of these men, enrolling solely for the cruise, were often immediately afterward entirely lost sight of."

"Under the old law there was no practical way of getting rid of men who had ceased to take an interest in the organization, or who came to life only long enough to make the training cruise. This system could not produce an efficient reserve organization."

"Virtually all the 'deadwood' has now been weeded out; recruiting has been good, and though there were a few locations where marked deficiencies were noted, generally the enlisted strength of the divisions approximates to the quotas allowed."

Boy Charges Father Put Hand Into Fire

His hand bandaged with a soiled piece of cloth, which covered a severe burn, said to have been inflicted by his foster-father, 6-year-old Walter Williams was found standing on the corner of New Jersey avenue and N street southeast, where he lives, crying in pain. Policeman T. O. Montgomery found him and took him to Casualty hospital.

The boy told police that two days ago his foster-father, Frank Williams, discovered him taking food from an ice box and punished him by sticking his hand in the kitchen fire. He said nothing other than the bandage was applied to his hand. The elder Williams is being sought by police. The boy was later removed to Children's hospital.

Press Building Men See Construction Today

Following a luncheon at the Willard hotel this afternoon, the officers and directors of the National Press building, a holding company for the National Press club, in the erection of the National Press building at Fourteenth and F streets northwest, will make an official inspection of the site and progress of construction of the building.

Envoy to Holy Land To Arrive Here Today

T. A. Swayze, selected "Golden Rule Ambassador from America to the Holy Land" in a recent national contest conducted by the Near East Relief association, will arrive in Washington this morning. The "Ambassador" represents the city of Tacoma, Wash., which far outdistanced other cities in the golden rule contest.

Mr. Swayze will bear a message of good will to orphans of the Holy Land, and inspect work being done by the Near East organization. He is a member of the Life Underwriters association, of the Gyro club and of the American Legion.
